

DARROW FIGHTS HARD FOR LIVES OF BOY SLAYERS

Ridicules Dr. Krohn and Testimony— Praises all Others

CHICAGO, Aug. 23. (AP)—The youthful slayers of Robert Franks were admitted by every alienist who examined them to be without emotional reaction, a directing force in the mind of any normal person, with the exception of one physician "who sells his services for cash and peddles perjury." Clarence S. Darrow, bulwark of counsel defending Richard Loeb and Nathan Leopold Jr., charged today, in pleading mercy for them before Judge John R. Caverly.

"Everyone of the psychiatrists on both sides of this case told the court that emotion furnished the urge and drive in life, that it is with one exception, Dr. William O. Krohn, who is not an alienist but an orator," Mr. Darrow declared. "Dr. Krohn, testifying for the state, said they did have it; that his short opportunity for examining them was 'fine,' although the others said it was not."

"But Dr. Krohn is not a physician. His license has been employed to professionally go in and out of courts, slaying his victims without regard to their age or sex or circumstances. Dr. Krohn for 16 years has been peddling perjury and we all know it."

Mr. Darrow closed a straight two hour address with this parting shot. At 20 minutes of 12, glancing at the clock, Mr. Darrow swerved from his resumed argument that the boys were moved by no motive but were purposeless, senseless and childish in killing Franks. For the final quarter of an hour he poured a stream of critical personal and sarcastic eloquence upon Dr. Krohn who has been described as the "ace" of the state's corps of alienists. Mr. Darrow said he will end his argument Monday.

Boys Interested
With attention Loeb and Leopold and their relatives followed the argument, Loeb in particular kept his eyes riveted on the slightly stooped man in the baggy gray suit whose brain and tongue were busy in trying to save him from the gallows. Leopold sat tense and motionless.

The boys showed no trace of emotionalism which on Friday sent them trembling and fearful from the court room. But there was little in today's proceedings to arouse such feelings in them. Proceeding with his argument that the crime was "so senseless as to be the possible product of only a diseased mind," Mr. Darrow pointed out to Judge Caverly that each detail of the killing, the disposition of the body and the actions afterwards took place under conditions that showed lack of mental balance.

He emphasized particularly that the kidnapping and killing occurred in the very neighborhood of the boys' homes where they were known to most any one that might pass. He also stressed the drive of the death car about South Side boulevards in broad daylight and that they followed (Continued on Page 4.)

POLICE CHIEF AND PATROLMAN KILLED BY FLEEING ROBBER

Chief's Son Wounded—Bandit Afterwards Killed By Officer

MARQUETTE, Mich., Aug. 23.—Marquette's chief of police, Martin Ford and Patrolman Thomas Thornton met death early today with their revolvers clutched in their hands. In the revolver fight that cost them their lives and which began near Bouchers' drug store here and ended at Chocolay, four miles away, John Lempi, slayer of Ford and Thornton was shot to death, and Floyd Ford, son of the police chief was seriously wounded.

Thornton came upon Lempi attempting to break into the Bouchers' drug store here. At his command to "throw up your hands," Thornton said, Lempi whirled and began firing, one of the bullets mortally wounding the officer.

Pursuit of Lempi was renewed by the police chief, his son and Tippet. They came upon their man concealed by the high banks of the Chocolay River. Lempi crouched behind the bank, dropped the police chief with his first shot. Floyd, standing near his father, opened fire, but fell a moment later with a bullet in the abdomen, and a deep gash in the head from another Lempi was recovered half an hour later. A deep bullet wound on the top of the head caused his death.

JEWEL SMUGGLING TO HAVE PROMINENCE IN CASE AGAINST M'COY

Attorneys Say Ex-Puglist Was Without Knowledge of Deal

LOS ANGELES, Cal. Aug. 23.—Kid McCoy, former prize fighter, indicted for the murder of Mrs. Theresa W. Mors here August 12 last, stumbled into a jewel smuggling plot, and a killing that landed him behind the bars, but McCoy knows nothing about either, according to a statement tonight by R. D. Knickerbocker, attorney for the prisoner.

The jewels in the Mors collection, some of them already in federal and county custody and a number of others still missing, most of them declared by United States government investigators to have been smuggled, are to bulk large in McCoy's defense, his attorney said.

Federal officers admitted they still were trailing the missing diamonds, emeralds, and rubies which they declare completed the Mors collection, but concerning which Albert A. Mors, divorced husband of the dead woman says he knows nothing.

While the county officers are concentrating on upturning evidence relative to the indictment of murder against McCoy and federal officers are hunting the missing precious stones, the defense, grouping the two angles under one head, is outlining a case that will tend to show that the killing of Mrs. Mors and the smuggling of the jewels were part of the same story and that in this story McCoy had no role.

The ex-fighter's attorneys also are building confidently on the sworn testimony before the county grand jury of Mrs. Ivan Martin, apartment house neighbor of Mrs. Moore, who said she saw one or two men running from the Mors apartment after the shot was fired that killed Mrs. Mors, and that he was not McCoy, but Mors.

County investigators discount this evidence with the argument that Mors has set up an alibi for the night of the killing and that Mrs. Martin must be mistaken.

The legal battle is to open Monday in Judge Charles S. Cralf's court, when McCoy comes up to plead to the murder charge.

PARTNERS OF DEAD MAN ALSO MISSING, CASE COMPLICATED

Third Partner Disappeared in May With Part of The Money

NEW YORK, Aug. 23. (AP)—Search for the slayer of Aaron Graff, radio cabinet manufacturer whose dismembered body was found yesterday in a tin box in a Greenwich Village basement, was further complicated today by the discovery of police that both of Graff's business partners were missing.

One of the partners, John Lugosy, disappeared on Aug. 9, thirteen days before Graff's body was found in the basement of the apartment house where Lugosy was caretaker. General alarms for his arrest broadcast thru the country had brought no result tonight.

Their hunt for Lugosy led police to the discovery that a third partner, Charles E. Ross, disappeared last May 30 after having drawn \$1,000 from a bank account held jointly by himself and Graff. Ross was a native of Hungary.

KID M'COY'S MOTHER IS REPORTED DYING

LOS ANGELES, Aug. 23.—Mrs. Mary E. Selby, aged mother of Kid McCoy, former prize fighter under indictment for the murder of Mrs. Theresa Mors was reported to be dying at her home here tonight.

Weakened in health by an attack of heart disease about a year ago, Mrs. Selby collapsed when her son became involved in the alleged murder of Mrs. Mors and since has been waging what physicians declare is a losing battle for her life.

LA FOLLETTE FINANCE MATTERS DISCUSSED

Washington, Aug. 23.—The problem of financing the La Follette-Wheeler campaign, particularly during the next few weeks was discussed here today at a lengthy conference in which both Senator La Follette and his running mate, Senator Wheeler of Montana participated. Others who attended the meeting are members of the committee which is in charge of campaign operations.

BELIEVE LEE WILL RUN FOR TEXAS GOVERNOR

Houston, Texas, Aug. 23.—Belief that T. F. Lee of Houston who recently refused to accept the Republican nomination for governor will be prevailed on to reconsider his decision and make the race was expressed in Republican circles here Saturday following the action of the eighth district convention in unanimously endorsing him for the position.

PRESIDENT DOES NOT MAKE REPLY REGARDING KLAN

Remains Quiet When Told of Dawes and Davis Speeches

Plymouth, Vermont, Aug. 23. (AP)—President Coolidge gave himself into the hands of friends and neighbors today and with Mrs. Coolidge and his father, spent the afternoon on the front lawn of the family home here shaking hands and visiting.

If his mind was on the campaign and its most recent developments bring the Ku Klux Klan into the limelight, Mr. Coolidge did not disclose it. The booming of the first offensives of the two parties, including the address yesterday by John W. Davis, Democratic candidate and today by Charles G. Dawes, the president's running mate came into this quiet hamlet over newspaper wires but halted suddenly in the office of C. Bascom Slem, secretary of the president.

Last night Mr. Slem informed Mr. Coolidge of the suggestion by John W. Davis that the president join by "explicit declaration" in eliminating the Klan as a campaign issue. Today Mr. Slem received word of Mr. Davis' speech and late this afternoon reported it to the president. Both messages were received without comment by the Republican nominee.

Meanwhile Mr. Coolidge, except for his social visit, this afternoon the first with the townfolk since he arrived a week ago on his 12 day vacation kept close to his father's home in company only with members of his family as usual.

NEBRASKA WANTS TO HEAR DAVIS

LINCOLN, Neb., Aug. 23. (AP)—On the strength of advice from the Democratic national headquarters received by Arthur F. Mullen national committeeman from Nebraska plans are being tentatively discussed by state leaders for the initial appearance of John W. Davis, Democratic candidate for president in the home state of his running mate, Governor Bryan.

The message received by Mr. Mullen said that Mr. Davis probably would be able to speak at Omaha some time between Sept. 5 and 8. Party leaders in Lincoln are also hopeful that the presidential nominee will find a place on his itinerary for an address here.

MESSAGES SENT TO DAVIS ON KLAN

NEW YORK, Aug. 23. (AP)—John W. Davis, the Democratic presidential candidate began to get the reaction today from his denunciation of the Ku Klux Klan yesterday in his address at Seagirt, N. J.

Messages reached his headquarters here from party leaders and others in a number of states. None of them was made public, but it was stated that all were of a congratulatory nature.

Naturally, Mr. Davis was heartened by them, but he had no comment to offer. Nor did he make any statement regarding published reports from Plymouth, Vermont, that for the present at least, President Coolidge would not discuss his invitation to join in removing the subject from the realm of political debate by making some specific declaration concerning it.

WAS NOT BLOOD BUT CHOCOLATE SYRUP

DANVILLE, Ill., Aug. 23.—After chasing a robber who had attempted to hold him up tonight, and firing several shots at him, Frank Saikley, grocer was rushed to a hospital by anxious friends. When placed on the operating table it was discovered that what appeared to be blood on the front of his shirt was chocolate syrup and he was uninjured. One of the bullets fired at him struck a bottle of syrup and splashed its contents on his clothes.

BUSINESS MAN OF ASHTON IS DEAD

Ashton, Ill., Aug. 23.—Almon W. Rosecrans, for thirty years a business man of this city, for two terms mayor, and president of the Illinois Sunday School Association in 1908, died at his home here this morning at 7 o'clock, aged 71 years. Funeral services will be held Monday afternoon.

Washington, Aug. 23.—Reduction by the federal reserve bank of San Francisco of the rediscount rate from 4 to 3 1/2 percent on all classes of paper of all maturities effective August 25 was announced today by the federal reserve board.

Another Bank Robbery In Southern Illinois

Freeburg, Ill., Aug. 23.—The seven bandits who this afternoon held up and robbed the First National Bank here of \$10,500 were believed tonight to have evaded the posse which was thought to have surrounded the robbers in a woods near Fayetteville, seven miles from here. Reports indicated that the bandits had made their escape towards St. Libary in a southeasterly direction.

FREEBURG, Ill., Aug. 23. (AP)—The series of bank robberies in Southern Illinois was augmented late today when seven men held up the First National Bank of Freeburg and escaped with approximately \$10,000.

This was the twelfth bank robbery in this section within a period of four months. Only yesterday four bandits obtained \$5,851 from the Venice, Illinois State Bank. Members of the Illinois Bankers' association met at Edwardsville yesterday to consider drastic measures in an effort to stop the epidemic of holdups.

Five men entered the bank while two remained outside in a motor car. They escaped under fire from a riot gun in the hands of the bank's president. No one was wounded.

The robbery, the second in Southern Illinois, within the 24 hours and the twelfth within the last five months, was committed by white members of the Illinois Bankers' association were meeting at Edwardsville to consider drastic measures in an effort to halt the series of bank robberies in this section of the state.

The total loot taken in these twelve bank robberies aggregates nearly \$200,000.

R. E. Hammill, president of the bank, three glad employees and two patrons were in the bank when five of the bandits entered and forced all save the bank president to face the wall. Hammill was led into the vault while the robbers scooped up all the money in sight and fled.

Hammill was released from the vault immediately after the robbers had departed. Seizing a riot gun kept in the bank for such an emergency he ran to the door and fired several shots at the fleeing bandits who made their getaway in an automobile. Two machines, occupied by several men are said to have followed the bandits.

BUREAU COUNTY BOYS GIVEN FIRST PLACE AS JUDGES OF STOCK

Sangamon County Boy Wins Individual Honors in Contest

AURORA, Ill., Aug. 23. (AP)—First honors in the livestock judging contest held at the Central States exposition and fair for boys' club members went to the Bureau county team, composed of Lawrence Carper, and Gilbert Carver and Wilmer Dremann, it was announced today by E. I. Pilchard, boys' club work specialist of the college of agriculture, University of Illinois, who had charge of the event. The victory of the Bureau county youngsters gives them the state junior championship in livestock judging and the right to represent Illinois in an interstate contest to be held September 15 at Sioux City, Iowa.

All expenses of the team for this trip will be paid by the Illinois Agricultural association. The winning team was coached by J. B. Haber, assistant farm adviser of Bureau county.

William Allen, a member of the Sangamon county team was the highest scoring individual of the contest.

Joseph Baumann, Reuben Carson and William Allen of Sangamon county, composed the team that took second honors in the contest. The Mercer county team which ranked third, was composed of Joseph Lemon, Floyd Wheeler and Lawrence Skinner. The Peoria county team was fourth, Lake, fifth, Knox, sixth and the Shelby county team seventh.

The contest this year was larger than the one of last year seven teams competing as compared to five last year, according to Mr. Pilchard. Each team placed and gave reasons for their placements on one ring each of hogs, horses and sheep and in addition placed a ring of hogs and dairy cattle. The reasons and placings of the young judges were graded by boys club work specialists from the agricultural college.

THREE CASUALTIES FROM SHAM BATTLE

LOUISVILLE, Ky., Aug. 23. (AP)—Three casualties, one serious, resulted from a 36 hour sham battle of 18,000 men, compared to five last year, according to Mr. Pilchard. Each team placed and gave reasons for their placements on one ring each of hogs, horses and sheep and in addition placed a ring of hogs and dairy cattle. The reasons and placings of the young judges were graded by boys club work specialists from the agricultural college.

APPROPRIATIONS FOR WAR VETERANS LARGE

Chicago, Aug. 23.—Congressional Appropriations for the benefit of world war veterans made up to July 1, 1924, total \$2,774,370.24, according to a statement issued tonight by the Republican national committee. Of this amount, the statement adds, the record shows that \$2,253,220.439 has been appropriated since the Republican party came into control of congress May, 1919.

PROFESSOR SAYS MARS CRAZE FOOLISH

Cleveland, O., Aug. 23.—"Anybody who is fooling around trying to pick up a radio employed in more useful business," was the comment of Rev. Frederick L. Odenbach, S. J., astronomer at John Carroll University this city, in a statement giving his opinion relative to the receipt of alleged signals via radio from the planet.

NO TRACE FOUND IN SEARCH FOR ITALIAN AIRMAN

Situation as to Where- abouts of Locatelli Serious

ON BOARD U. S. S. BARRY
Aug. 23. (AP)—After a two days' search for Lieutenant Locatelli in the vicinity of Cape Farewell the Barry headed for Pictou Nova Scotia, having on board Lieutenant Wade and Sergeant Ogden who are anxious to tune up a new machine in readiness for their flight to Boston when their comrades arrive from Indian Harbor.

In the meantime the Raleigh is remaining on the east coast and hopes to be able to use its planes soon, while the Danish steamer Islands Falk, the U. S. S. Milwaukee and a destroyer are combing the west coast from Farewell to Iqviut.

The situation so far as concerns Locatelli is growing more serious as it is improbable he carried a large supply of provisions, and indications are that his plane met with some mishap, or he would have found some means of communication with the searching ships.

It is even considered possible that he missed Greenland altogether and headed out over Davis Strait. But it is improbable that his fuel supply was sufficient to enable him to reach Labrador.

PLAN RATIFICATION IN GERMANY SEEMS HIGHLY FAVORABLE

BERLIN, Aug. 23. (AP)—Chancellor Marx, Foreign Minister Stresemann and Finance Minister Luther, the three German delegates to the London international conference today gave the Reichstag a formal accounting of their defense of German's interests in the settlement of reparations problem. That the government made out a strong case for itself was the prevailing opinion of the ranks of the middle parties and the Socialists while the official declaration is believed to have had a decisively sobering effect upon the Nationalists.

Ludendorff's Fascist party and the communists were the only heckling factors at today's session. The foreign minister's defense of German's interests in the settlement of reparations problem. CAMP GRANT MAY BE STATE FLYING CENTER

ROCKFORD, Ill., Aug. 23. (AP)—Camp Grant may become the flying center for the proposed new Illinois national guard air service as a result of a conference among Gov. Len Small, Major General Foreman, Adjutant General Carlos E. Black and Major Reed Landis at camp late Friday.

Major Landis, who spent last night at the cantonment conferring with state military and civil authorities concerning the organization of the new air force returned to Chicago today.

Equipment for the guard aerial unit will be furnished by the government including airplanes and hangars. Plans were made originally to locate the flying field in Lincoln Park, Chicago, but owing to the fact that a heavy liability bond was required there this plan was abandoned.

PERSHING IS GREETED BY HOME TOWN FOLKS

CHEYENNE, Wyo., Aug. 23. (AP)—General John J. Pershing, chief of staff of the United States army, was greeted at the train by 1500 citizens when he came to his "home town" Cheyenne.

General Pershing was met here by his son, Warren, who had preceded him to Cheyenne, for a visit with Senator Francis E. Warren, father of the late Mrs. Pershing. While they are here General Pershing and his son will visit Lakewood Cemetery where lies the bodies of Mrs. Pershing and two daughters, who died in San Francisco nine years ago.

UNDERGROUND BREWERS SERVED WITH WARRANTS

Chicago, Aug. 23.—Federal warrants for the arrest of six men alleged to have operated an underground brewery at Frankfort, Illinois were issued today. Prohibition agents raided the place Friday and disclosed a complete brewery located beneath an inconspicuous cottage. Among those named is Frank McNichols, Chicago, supposed to be the owner of the cottage, and Edwin Wahl.

ROCK ISLAND OFFICER DIES FROM HEAT

Newark, O., Aug. 23.—George C. Kilpatrick, 51, general superintendent of the Rock Island railroad shops at Davenport, Iowa, fell dead here tonight.

MRS. FERGUSON LEADS KLAN CANDIDATE FOR GOVERNOR OF TEXAS

Ran For Office to Vindicate Her Husband Who Was Ousted

DALLAS, Texas, Aug. 24.—Returns at 1:30 o'clock this (Sunday) morning received by the Texas election bureau from 223 counties out of 252, including 46 complete, gave for the Democratic nomination for governor: Mrs. Miriam Ferguson... 353,136
Felix Robertson... 274,279
Total vote tabulated... 627,415
Mrs. Ferguson's majority 78,858

DALLAS, Texas, Aug. 23.—Mrs. Miriam A. Ferguson, the first woman candidate for governor of Texas, apparently was assured of the Democratic nomination, the Texas election bureau announced at midnight.

The tabulation at that hour included incomplete returns from 180 counties and complete from 37, out of 252 in the state. Mrs. Ferguson had 257,370 and Felix Robertson the Klan candidate 198,481. Election bureau statisticians estimated the total vote would be from 650,000 to 700,000. Many of the unheard from precincts were said to be in rural districts where Mrs. Ferguson was expected to show a lead.

Robertson admitted the Klan support and James E. Ferguson, who conducted the campaign for his wife, arraigned the Klan in virtually every speech he made. Democratic nomination in Texas as usually has been equivalent to election.

That a woman was the anti-Klan candidate and possibly the Democratic nominee for governor of Texas was due to the impeachment of Governor Ferguson about seven years ago in his second term. He was accused of so handling state funds that he derived personal gains.

Unable to get his name on the ballot as a candidate for governor, Mrs. Ferguson became the candidate, but her husband, the former governor, conducted her campaign and made her speeches.

Mrs. Ferguson said her candidacy was in an effort to gain an answer to her prayers that the name of her husband, her own name and that of her children and grand children be vindicated of the stigma of the impeachment of judgment. She said she did not seek revenge and would not be a candidate again if vindicated.

The Republicans nominated T. P. Lee of Houston, for governor in state convention August 13. That he hoped Mrs. Ferguson would be the Democratic nominee and if she was, he would regard his nomination as an "empty honor."

This aroused Texas Republicans and Lee wired that he would decline the nomination. Miss Elizabeth Baker, the Republican nominee for state superintendent of public instruction, also withdrew saying she favored Mrs. Ferguson. The Republicans expect to name candidates for these offices next week.

COHEN CHOSEN STATE DIRECTOR OF LABOR

CHICAGO, Aug. 23.—Barney Cohen today received appointment from Washington to be federal director of labor for Illinois in the United States employment service. For the last three years he has been director of the third district. He retains that post in connection with the new one.

Mr. Cohen was state director of labor under former Governor Frank O. Lowden, and is a former president of the Illinois Federation of Labor.

NO DAMAGE DONE DIXON, ILL. AUG. 23.—Although five inches of rain have fallen in three storms of this week, causing Rock river to become a torrent, the highest summer mark it has reached in the memory of the oldest citizens, there is no danger here, according to en- gineers. The Illinois Northern Utili- ties Power dam is perfectly sound, they declare and no ap- prehension is felt.

Excavations for the new I. N. U. hydro-electric plant have been completely inundated and the water has overflowed all coffer dams, but no particular damage has resulted.

HOOVER CONFIDENT IF VOTE GETS OUT

Chicago, Aug. 23.—Emerging from a conference with William L. Butler, chairman of the Republican national committee, Herbert Hoover, secretary of commerce declared "it is all a question of getting out the vote."

"We shall elect Mr. Coolidge and carry every state west of the Rockies," he averred quietly, "if everybody gets out to vote."

REPUBLICAN TEXT BOOK IS READY FOR MAIL

Chicago, Aug. 23.—The Republican campaign text book is now ready for distribution it was announced today by the national headquarters. Three chapters devoted to the interests of labor are among the more significant sections of the book.

DAWES MENTIONS KLAN IN SPEECH AT AUGUSTA, ME.

Lays Aside Prepared Speech and Aston- ishes Hearers

AUGUSTA, Me., Aug. 23. (AP)—Charles G. Dawes, Republican candidate for vice-president, opened his speaking campaign today in Augusta with a declaration of opposition to the Ku Klux Klan and a denunciation of attempts by labor leaders to "influence patriotic law-abiding union men into a political combination with Socialists."

Mr. Dawes had announced he would "shoot straight from the shoulder, politicians or no politicians," and the audience which gathered at Island Park near here was prepared for some hot shots. It was taken back somewhat, however when the vice-presidential nominee mentioned the Klan by name in his first sentence, disclaimed that institution at some length and then turned his fire on "politicians crying before the whip of a few bluffing labor leaders."

"Appeals to racial, religious or class prejudice by minority organizations are opposed to the welfare of all peaceful and civilized communities," he shouted with waving arms after telling of the rise of the Klan in Oklahoma and Williamson county, Illinois.

"Our constitution stands for religious tolerance," he continued. "To inject religious and racial issues into politics is contrary to the welcome of all true people and to the letter and spirit of the constitution of the United States."

Audience Aghast
The audience stood astonished for a moment, for Maine is counted by Klan leaders as one of the states where the organization is strongest, then there was scattering applause, but many of those present merely looked at one another, plainly wondering as to the effect of the statement just made on next month's barometrical state election.

There was somewhat general applause tho, when Mr. Dawes concluded the Klan portion of his address by saying:

"I have told you why I am opposed to the Klan. Take what I say into your hearts and consciences, and think it over calmly. However, it may be with the mind, there is no acrimony in conscience."

Mr. Dawes then launched into the address he had prepared before leaving Evanston for Maine and the applause became more general but there were numerous looks of astonishment as he entered upon his discussion on trade unionism.

"The benefits of trade union, honestly administered are recognized not only by me, but good citizens generally, whether in or out of trade unionism," he asserted. "It has elevated, protected and dignified labor and in so (Continued on Page Three)

There are many pleasures and advantages for those who live in cities or towns adjoining rivers, but there are drawbacks as well. The great loss of property to river towns and cities two years ago as the result of high water is a matter of vivid memory. Now the

water is again at the danger point and residents along the river are not in a peaceful frame of mind. A near by river furnishes its pleasure and gives a certain source of water supply, but after all the inland city has the higher percent. of advantages.

Senator Wheeler predicts that Senator LaFollette will carry Illinois in the presidential race. Some of the political prophets certainly have vivid imaginations or are blind to the facts and conditions. Anyhow nothing is heard from or about the average prophet after election day.

A lot of the political speakers summarize what they have to say with the statement that old time morality and honesty is what the world needs. That's the sermon that Babson and other business specialists have been preaching for several years past. Organizations of men's and women's clubs are also telling the same thing and the churches have long been on the job. But the situation has not been nearly as bad as it has been sometimes painted in public affairs, as well as private, it is not the good humdrum every day action that get into the limelight. It is the other kind.

Members of the Jacksonville howitzer company came home yesterday afternoon after two weeks' training at Camp Grant. From all accounts it was a vigorous two weeks and this assembling of the thirty-third division was the largest of state troops that has been held in peace times.

The maintenance of the national guard is a necessity. Its very existence is a protection to say nothing about the duties that the companies are called upon to perform from time to time. In peace times there is a tendency to forget the usefulness of the state troops and to fail to give credit to the patriotism of the young men who constitute these troops and the officers who train them.

WHY YOU GET TIRED

BY ALBERT APPLE

At the age of 109, Mrs. Nora Bradley Kane died in Newton, Conn. She claimed she never had a doctor until a week before her death, yet had always enjoyed fine health.

Her formula was: "Work hard and leave all the rest to God." A fine formula for a person gifted with excellent health. She never had a physician, for the simple reason that she never needed one. Incidentally she escaped an unfortunate feature of some medicine—that it often cures one organ of the body by wrecking another.

Doctors don't prescribe as much pills and tonic as they used to. They have their place in certain definite ailments, but the medical profession is recognizing Proper Living and Sanitation as the best medicine.

Formulas for living to very old age are constantly coming to light in the news. The public is always eager for them. But, unfortunately, these formulas rarely are of much value—because what is one person's meat is another's poison.

Aged people frequently claim that temperate living is responsible for their advanced years. Yet the other day a healthy veteran of 74 appeared before Magistrate Gresser in New York on a charge of being intoxicated. He said that he had been drink-

ing whisky for 60 years, and the only difference he could notice was that liquor is "not what it used to be."

People who survive to very old age usually come from long-lived stock. In one family, members who grow to maturity have a tendency to live to about 70, while in another family most of them die around 60.

Making allowances for individual cases that deviate from the rule, every family has—by the law of averages—its danger year, when death seems to strike down the greatest number. If you have a record of your family tree, you danger year—when to be most careful.

The age of death has a close connection with heredity.

Bamboozled
How honest is the average person? Chapman and Bower, ticket sellers at the North Station in Boston, have lent \$1000 apiece of their personal funds to stranded strangers. Of course, every one of the borrowers was profuse with thanks and fervent in promises to repay.

The net result? Chapman and Bower say they have gotten back only 5 cents on the dollar. But this doesn't prove that the average person is dishonest. The two ticket sellers lent to only a few out of the great traveling public. Public averages honest.

Taxes Should Be Lowered

In writing this letter I wish it to be understood that I am not a chronic grumbler. I am just the average citizen that believes the time has certainly come for the people to wake up and do something to end the era of extravagance in public spending, and I may add, wasting of the people's money.

Economies should begin at home and any intelligent voter must certainly see that our County government is an example of wastefulness.

I am a farmer and have always been a consistent Republican, and when the Democrats were in the majority I was one of those that used the just argument that a full County board was, absolutely wrong and unfair, and that better and more careful County government was possible only when both political parties were represented.

We Republicans during the last four years have undoubtedly demonstrated that we had no more business to have a full Republican board than did the Democrats.

Let us just notice a few facts in relation to our County board's expenditures. They pay our Health Officer over \$1000.00 per year besides what he receives from several other sources. He has about as good a position as our State Treasurer.

The highway Superintendent receives \$3,500 per year salary. Please just consider a moment, that these two officers alone take nearly \$11,000.00 per year out of the County Treasury, and they are appointed by the County board, and remember that the Republican Party is responsible for their election.

This fall there will have been a full Republican County board for the past four years and two of the said members have served during the four years, an done of whom is a candidate for re-election this fall.

Won't enough tax ridden farmers and business like citizens try the experiment of electing a minority member of the board? The trial certainly could make matters no worse and I for one Republican am going to try it.

The expenditures above mentioned are not by any means the only ones complained of. A review of the County expense bills will reveal other similar extravagances and the farmer borrowing money to meet his taxes as well as the other overburdened tax-payer will be repaid to give consideration to this political mistake we have been making.

The time to lower your taxes is at the election booth and not when you face the tax collector with your check book.

Think it over, and do your duty as a citizen.

HEAVY INCREASE IN FAIR ENTRIES SHOWN

Board Hears Reports, Indicating More Exhibits in Many Departments This Year—Work Men Busy on Grounds.

The final meeting of the county fair board before the opening of the fair on Sept. 1, was held last night. Reports showed heavy increases in entries in the sheep, cattle, poultry, light and heavy horse and speed departments. Additional tents have been ordered to house the race horses that are being entered for the five days of racing at the fair.

The first car load of tents arrived yesterday, and the work of erection will begin Tuesday morning. A gang will work all day today wiring the grounds for the tents. The work of painting the various objects on the grounds is progressing rapidly and the looks of the grounds are already greatly improved.

Many flags will be used this year, being placed at the corners of the judges, and grand stands, and on the tops of the tents.

The first shipments of forms and designs for the fireworks display to be given each evening during the fair, arrived yesterday. The Guy Baldwin people will furnish these fireworks and put on the free acts at the fair. The big frames that have already arrived show that the displays will be elaborate.

Already many entries have been received for the Better Baby conference, which promises to be one of the big features of the fair. It is urged that all parents enter their babies, either for the purpose of having them properly scored, or in the competitive class for prizes.

CLUBS

A called meeting of the Brooklyn Ladies Aid society is announced for the residence of Mrs. J. E. Bossarte, 1012 South East street, Monday afternoon, August 25 at 2:30 o'clock.

As this is the last meeting of the year before conference it is important that all business be closed up and all members are invited. The King's heralds will meet at 2:30 and those who have helped to earn money will receive credit. The members are urged to be present.

SCOTT CHAUTAUQUA CLOSING FRIDAY

Successful Program Comes to Close Friday Night—Other News Notes

Winchester, Aug. 23.—The Winchester chautauqua closed Friday evening with a concert by Bachman's Million Dollar band. A wonderful program was given both afternoon and evening and the auditorium of the High school building was filled with an appreciative audience.

Mrs. C. T. Mowen and daughter Ramona of Jerseyville visited her mother, Mrs. Ely here this week.

Carl Woodall and family left Sunday for Missouri and later they will visit at Anthony, Kan. From there they will proceed to Lakeland, Fla., where they will make their home. Mr. Woodall has been in the grocery business in Winchester for many years. The many friends here will regret to know of their departure from their midst.

James Walter Wallace passed away Thursday at his home in Alton after a lingering illness. Funeral services were held in the Baptist church in Alton with the Rev. Jay Johnson officiating. The remains will be brought here for interment in the Winchester cemetery. Mr. Wallace is a former Winchester resident.

Mr. and Mrs. Vane Rutherford have returned to their home after a pleasant visit in the west and east.

Dalmat Jr. and Maden Young returned Friday to their home in East St. Louis. They were accompanied by their grandmother, Mrs. John McGlothlin.

Miss Hettie Beadles of Kansas arrived Sunday to visit at the home of Mr. and Mrs. William Lyons and family west of town.

Mr. and Mrs. Fred Wood and daughter expect to return to their home Sunday in Indianapolis, Ind., and Mrs. Ray Windsor and daughter to their home in Gillespie and Mr. and Mrs. Edward Gibson to Alton after a visit with Mr. and Mrs. P. R. Nelson.

What is the strongest of the emotions? Love? Hate? Neither. It is jealousy!

More desperate actions have been perpetrated at the frenzied direction of the Green Eyed Monster than can be attributed to any one other element of human nature. Jealousy is a concoction of emotions, the ingredients of which are all the others—love, hate, envy, remorse—all of them!

Because of jealousy, Mark Lezard contrives to have Jack

Yeulette find a girl whom he believes to be his wife in the arms of another man. Because of jealousy Yeulette upbraids his wife and, despite her ignorance of the alleged infidelity, deserts her. This jealous man is responsible for nearly wrecking the lives of three persons. It develops that the girl whom Yeulette had seen in the arms of another was a sister of his wife whom he had never seen. Which opens the way for another interesting question. JAY EMBE'S CRUMBS

The Pessimist: "You Can't Do It."
The Optimist: "You Can Do It."

Whatever his politics, no one can but admire President Coolidge's calm manner of completing any task in hand despite the many others awaiting him. His example is well worthy of emulation and comes to America at a particularly opportune time, when on all sides one sees such a tendency on the part of so many to slip shod every duty at hand in order to rush on to another waiting task. After all, our only requirement is to do the present task to the very best of our ability.

We gain proficiency and acceleration for waiting tasks by finishing the one in hand better than we have ever done before.

Can you recall a single instance when Jesus bade us to rush like mad to accomplish our daily living? He did not even hurry when told that Lazarus was dying—the message that quickens when nothing else will—but He did not rush. Is there not refreshing rest for us in that story?

The sable folds of a yesternight. Enshrouds our past, good and bad from sight.

A fresh new day with high hopes is born!

More Costly
And now "they" are telling us. What this country needs is to have about ninety-nine out of every one hundred of its laws repealed. And we paid big to have those laws made, and we must now pay big to have them unmade.

DEATHS

Coover

Mention was made yesterday of the death of Mrs. Percival Coover, which occurred at an early hour Saturday morning, after a very brief illness.

Jacksonville has been the home of Mrs. Coover throughout her life and many friends made with passing years heard with sincere regret of her untimely going.

The deceased was a member of State Street church. Mrs. Coover before her marriage was Miss Louie Phillips and she is survived by her husband, one daughter and one son, Mrs. Charles Baker and J. V. Coover; her mother, Mrs. A. R. Gregory, and two half brothers, Fred L. Gregory and Dr. A. R. Gregory.

The remains were taken to the undertaking rooms of Williamson & son and funeral services will be held tomorrow afternoon at 3:30 o'clock at the home of Dr. Gregory, 551 South Main street. Interment will be in Diamond Grove cemetery.

COUPLE ATTEMPTED TO BURY BABY ALIVE

KANSAS CITY, Mo., Aug. 23. (AP)—Mr. and Mrs. Loren Peerson are in the county jail tonight, held without bail, on a charge of assault with intent to kill. Their two week-old baby boy, the intended victim of a sacrifice for family pride, sleeps peacefully in a crib at General Hospital.

Arrested today the couple confessed that they had planned to smother the infant and bury it to save their families from the disgrace that would follow should the birth of the baby become known. Mr. and Mrs. Peerson were married three months ago at the home of the bride at Bates City, Mo. Both were of prominent Bates City families. Following the wedding the couple came to Kansas City.

Peerson last night on a lonely road near Kansas City, was preparing to bury the baby in a grave he had dug, when officers came to investigate his actions. Peerson ran, after a scuffle with the officers, leaving the baby, a motor car and his spade behind.

Mr. and Mrs. Peerson will not plead guilty as they first told authorities they would do, they said tonight.

The couple said they could not see their act in the light of attempted murder.

FORMER SPRINGFIELD MAYOR DIES

Charles T. Baumann, formerly mayor of Springfield, died in that city Friday afternoon. Mr. Baumann served eight years as mayor of Springfield and had held other positions of public trust. He was defeated last year by Mayor S. A. Bullard, who is now serving.

After his retirement from political life Mr. Baumann gave his attention to the drug business, in which he had previously been engaged.

doing it has been an element in the progress of our nation. "But why do so many politicians of both parties continue to regard the great, intelligent, honest and conservative body of trade unionism as if it were a puppet in the hands of a few Social labor leaders and political demagogues?"

The vice-presidential nominee then turned to another question on which his attitude often has been discussed by political leaders since his nomination, that of the open shop.

The Open Shop.

"What pretext except personal political advantage, have any labor leaders in attempting to bring the question of the open shop into politics?" he asked. "The supreme court of the United States has held that the right of employees in a body to bargain with their employers for the closed shop is one of the inalienable rights of the individual under our constitution. If a political party should place an open shop plank in their platform with a view to its crystallization into law, it would be striking at the constitution just as much as the lawless labor leader who in the interest of the closed shop would order an American citizen assaulted as he went peacefully to his work. Questions like that of the open shop will always be an issue among good citizens, but these differences are not political. They are economic and must be adjusted by political parties."

Mr. Dawes also defended the appointment of Americans to act unofficially in aiding Europe to settle the reparations problems, attacked the Democratic platform and nominee for its proposal to lead "the nation back into the fog bank of debate on the league," and outlined the results of the economy program of the Republican National administration and of the present tariff act.

On all of these three subjects, his utterances were made as a reply to the acceptance address of John W. Davis, the Democratic presidential nominee.

Casting aside his prepared address Mr. Dawes concluded with an attack on the LaFollette movement and an appeal to the people of Maine to remember that "the predominant issue is the contest between progressive conservatism under the leadership of President Coolidge" and the "unbridled and dangerous radicalism" of the LaFollette candidacy.

DARROW FIGHTS HARD FOR LIVES OF BOY SLAYERS

(Continued from Page One)

The main arteries of travel to the section where they disposed of the body.

"If every death vehicle went over the same kind of route driven by sane people, I never heard of it and I fancy no one else ever has," he said, and, rubbing his gray locks as if to bring out an adequate explanation for such an act.

"Why did they do it? For nothing. The mad act of King Lear is the only thing I know to compare it with. Yet some of the doctors here have declared it a sane act.

"And the state says these boys are sane because they planned this crime. Why, maniacs plan, idiots plan, animals plan and here we have plans from the diseased minds of boys."

Flays Newspapers
Mr. Darrow also brought up again today the effect upon the community of newspaper accounts of the crime and the wealth of the Leopold and Loeb families. He reiterated that these forced him into the position of pleading for the lives of his clients. He painted a gruesome picture of the boys upon the scaffold, bound, hooded, and "with some one waiting to loose the spring."

He philosophized again and again upon the barbarity of capital punishment and pleaded with the judge to decide the case by his own conscience, wisdom and courage, despite the pressure of newspapers and other directing forces of public clamor. He pictured, too, the depth of infamy to which the boys would descend if forced to spend all their remaining years within prison walls, checking off the days and hours and minutes.

Mr. Darrow hammered also on the idea that a death sentence would be against all precedent.

John Nunes

He repeated that 340 murderers had pleaded guilty in this county within 10 years and that only one 40 year old man had been executed, he having been sent to the hangman by Robert E. Crowe, state's attorney, when the latter was chief justice of the criminal court.

He also declared that hundreds of offenders have received mitigation of punishment on the recommendation of the state's attorney's office because of pleas of guilty that charges of felony have been reduced in degree, and that many culprits have been paroled, "being told to go and sin no more."

"What, then are the chief reasons for this demand for hanging?" queried Mr. Darrow. "They are first, because the families are wealthy, and second, because of the weird and uncanny murder."

But it was on the expert testimony of Dr. Krohn that Mr. Darrow trained his heaviest guns. He mentioned at one time that "the state put on three experts and Dr. Krohn." Then immediately changed to "three alienists and Dr. Krohn." He continued to make this sly distinction between "expert and alienist" at every mention of the doctor. The capabilities of the other doctors summoned by the state were extolled and he said frankly that if Mr. Crowe had not hired two of them first, he would have tried to secure their services for the defense.

Early in his address he thundered that whereas the boys had no adequately explainable motive for the murder, Dr. Krohn had one for testifying that they were mentally sound.

"That motive was cash," he said, crashing out the last word in voice that penetrated the corridors.

FARMERS INQUIRE WHY BURNS WAS DISCHARGED

WASHINGTON, Aug. 23.—The Farmers' National Council has asked President Coolidge's letter it announced today to investigate the action of Secretary Wallace in dismissing John M. Burns, from the solicitor's office of the packers and stock yards administration shortly after Burns had testified before a house committee and characterized the methods of the packers administration "as one of the most underhanded and sneaking cases of official terrorism in our country's history."

EUROPE HAS TRAFFIC RULES FOR AIRPLANES
London, (AP)—Rules agreed on by the British, Belgian and Dutch governments to minimize risk of collision between aircraft, have been issued by the air ministry.

These provide that every pilot when flying on a compass course shall, whenever it is safe and practicable, fly on the right of the straight line adjoining the point of departure and point of arrival. When an aircraft is flying beneath cloud, it must keep at a fair distance below the cloud base in order to see and be seen.

When a pilot decides to follow a route which is officially recognized or consists of a line of ground marks, he should bear in mind that the risk of collision with another aircraft following the same route is considerable. Every pilot shall endeavor to keep it at least 300 metres on his left. Every pilot who decides to cross any route he is following shall do so at right angles and as high as circumstances permit.

LARCENY PUNISHMENT IN CHINA NOVEL
Tsingtao, China, (AP)—The park police here demonstrated a new and effective mode of punishment for vandals recently when two men were caught stealing flowers.

The officers took the culprits to the main boulevard and made them kneel. To the prodding of police rifles they were made to shout to all passers by why they were being thus treated.

For 15 minutes they were compelled to shout: "I took what did not belong to me and promise never to do it again," while they were made to hold the stolen flowers aloft.

HONDURAS REPORTS CONTINUED CONFLICTING

San Salvador, Aug. 23.—Continuing advices on the revolution in Honduras have been received here with both the Honduras government and the revolutionaries claiming successes. An official dispatch from Tegucigalpa, Honduras, reports that the rebellion is confined to western Honduras and that loyal troops have inflicted such severe losses upon the rebels, as to cause numerous desertions in the ranks of the rebels.

The rebel line has been cut at three points by the government troops which have begun an encircling movement.

THROUGH DECEIVED BY COLORADO MIRAGE

Loveland, Colo. (AP)—A remarkable mirage appeared here recently on Fourth street, one of the principal thoroughfares. It took the shape of a deep pool of water in the middle of the street. When the story gained circulation a crowd gathered at the scene. Motorists swerved to avoid the "pool," only to find on closer examination that the street was dry. Persons approaching the place from certain angles could see in the "water" the reflection of passing cars.

The actual pool photographed in the mirage has not been located.

NOTE OF CONFIDENCE GIVEN IN FRANCE TO HERRIOT GOVERNMENT

Dawes Plan and London Agreement Defended Against Critics

PARIS, Aug. 24. (AP)—The chamber of deputies early this (Sunday) morning voted confidence in the Herriot government by 336 to 204, following the long debate in the chamber on the government's action at the London conference.

PARIS, Aug. 23. (AP)—Premier Herriot defended the Dawes plan and the London agreement in a two hour reply to his critics tonight during the course of the debate over parliamentary approval necessary to final signature of the accords next Saturday, provided Germany is ready to sign. He took as his theme "France must do what is right."

M. Herriot, frankly admitted that "we bring you the first fruits of hope," and not "complete peace," told the chamber that any of the deputies would have done as he did under the circumstances. Through the premier tried to keep the defense on high moral

grounds and endeavored to show that he could not use the Ruhr as a club at the London conference because M. Poincare in behalf of France given his word that it was not a military occupation but merely protection for the economic mission. So when the mission was withdrawn why should the soldiers stay.

"France," continued the premier, "whether represented by you or by me could not say: 'I will keep my promise if I am paid.'"

"I did all I could at London even supporting a thesis which I did not believe. But you also would have revolted and recognized that it was impossible to bargain in a question that was simply a matter of 'what was right.'"

SPANISH TROOPS IN MOROCCO SUCCESSFUL

Tetuan, Morocco, Aug. 22. (A.P.)—Five columns of Spanish troops with friendly native troops operating in the Tetuan section in the past few days have carried out successful demonstrations along the front line. They have relieved numerous small posts distributed at various points on the river Lau.

Miss Grace Armstrong of Franklin was among the callers in Jacksonville Saturday.

Tall cans of refreshing talcum for hot weather comfort; gleaming white jars of pure cleansing and vanishing creams; rich boxes of soft, adherent complexion powder; dainty vannies of powder and rouge; exquisite bottles of toilet water and perfume.

Dr. Harker Attends

An informal I. W. C. reunion at which Dr. J. R. Harker, president of the Woman's college, was guest of honor, took place recently at

the home of Mrs. Eleanor Angel, in DuQuoin, Ill., where Dr. Harker spent the past week visiting at his former home with friends and relatives.

The affair was given Wednesday evening, with ten former Woman's college students present, including Mrs. Melvina Fountain Bignall, a graduate of the college in '58. Others present included Miss Arleen Angel, Miss Lucille Morris, and Miss Florence McIlvain, who attended the college last year, and Misses Gertrude Morris, Mary Rowe who will enter as students this fall; Mrs. Bertha Provart Eddleman, Mrs. Marjorie Ward Lehn, and Miss Edith Brown.

The guests spent the evening in discussing old college times and plans for the coming years.

Campers Enjoy Picnic

Several parties of chautauqua campers enjoyed a "Get-together" picnic and chicken supper at Nichols park Friday evening, the guests including about 25 from the tent colony. Mr. and Mrs. Lamont Gist, and Mrs. Alvin Mol-

chon were chaperones of the affair, for which an elaborate supper was served. A number of old-time games furnished entertainment.

Among those attending were Misses Ruth Dorwart, Mary Baylis, Marita Doenges, Florence Bentley, Mildred Edmunds, Helen Lynn, Vera Allen, Florencia and Isabelle Short and Messrs. Charles Starks, Lawrence Lapey, John Murray, George Wetzel, Morris Johnson, Clarence Logan, Elmer Joquin, Carl Strawn, Harry Lee Hall, John Cully, Edward Joquin and John Putnam.

To Gain Weight

Breakfast—One cup berries, 1 tablespoon sugar, 1-2 cup cream, 1 cup rolled oats, 1-2 cup cream, 2 pieces crisp whole wheat toast, 1 tablespoon butter, hot water.

Mid-morning lunch—One large glass gaining egg orangeade, 2 brown bread and butter sandwiches.

Luncheon—One cup jellied tomato bouillon, 8 ripe olives, 3 toasts, 4 cheese crackers, lettuce and apple salad, 2 cream cheese and whole wheat bread sandwiches, 1 large glass iced chocolate.

Afternoon tea—One large glass 1924 mint julep, 2 thin slices Christmas fruit cake, 1 sponge drop cake.

Dinner—Four slices boiled beef tongue, 2 tablespoons creamed potatoes, 1-2 cup steamed spinach with 1-2 hard boiled egg, 1-2 cup jellied cabbage salad with 2 tablespoons French dressing, 2 slices rye bread, 1 tablespoon butter, 1 tablespoon honey, 1 cup custard.

Bedtime—One cup whole milk.

Total calories, 3891. Protein, 365; fat, 1611; carbohydrate, 1915. Iron, .0101 gram.

If you baked a Christmas fruit cake last year you will take it occasionally for afternoon tea with a "long cool drink." It's much more fattening than sponge cake or the ordinary summer cake you "stir up quick" and makes a welcome change.

Toss the lettuce and apple for the gaining diet together with thick cream as well as the fruit juice. The cream should be very cold and the salad served as soon as mixed.

Sprinkle square crackers with grated cheese before toasting for the luncheon.

Forceful Facts Concerning the Interests of Former Soldiers Sailors and Marines

There are 125 World War veterans now prisoners at Sing Sing, Ossining, N. Y., who will share in the State soldiers' bonus fund.

The American Legion will cooperate in observance of National Defense day and favors the test of the nation's manpower without reservations.

A glass fruit jar with a paper inside bearing his name is the only marker on the grave of James Bethed Gresham, first A. E. F. soldier killed in the World War.

Freddy Welsh, former lightweight champion, and former captain in the United States army is teaching boxing to the citizens at the military training camps.

The New York State Soldiers' Commission is paying a bonus to veterans of the World War in checks ranging from \$150 to \$3 cents. The average claim is \$123.06.

It has been proposed in Berlin to erect a big theatre as a World War memorial to German dead. The "House of Harmony" would be a place where national fetes could be held.

There are 525,539 men and widows of men who served in the various Indian wars, the Civil War, and the War with Spain, now drawing pensions from the Federal Government.

Private Ransom S. Cowan, drum major for the 11th Infantry Band, New York, claims to be the tallest man in the United States army. His height is 6 feet 9 inches; weight 210 pounds age, 26 years.

There were 33,544 students enrolled in the 27 civilian military training camps in the United States this year. The attendance at camps held in 1921 was 11,000; in 1922, 22,000, and in 1923, 24,000.

Monuments on American battlefields in France are to be limited to those approved by the U. S. Government and will be for the memory of the dead and not for the glory of individual divisions or commands.

The activities carried on by the Chemical Warfare Service of the United States army at Edgewood arsenal, Md., are kept very secret. Even army officers, outside of the plant, know almost nothing about what its experts are doing.

The American flag which was hauled down from the fortress of Ehrenbreitstein when the United States forces quit the Coblenz sector in Germany in January 1923, has been placed in a mahogany case in the reception room of the Secretary of War, in Washington.

The U. S. Government is to launch a campaign for the collection or funding of the \$6,000,000,000 still outstanding as a re-

sult of loans made to foreign nations during the World War. The United States will demand payment in full and will not even discuss the possibility of remission or cancellation.

The War Department has a list of ten "missing heroes" of the World War to whom decorations for valor were awarded, but were never found for presentation of the medals. The list includes also the names of three soldiers to whom similar awards made after death and whose relatives have not been found.

Sailors in the United States navy are served the choicest butter in the world. It is made from selected sweet cream, pasteurized, and churned without ripening. The butter is packed in five pound hermetically sealed tins, and may be taken through the tropics without refrigeration. Some 430,000 pounds of the best butter the dairies in this country can produce are now being prepared in four creameries in Minnesota and one in Wisconsin.

Throughout the United States there are thousands of former soldiers who, shortly after their return from France, never went to their homes after being discharged at the army camps. Rather than carry back to their old associations their disappointed hopes, their disfigured bodies, and their restless dispositions, these men changed their names and are working out their existence in various parts of the country where they are not known. Official records of the army and navy report these men as missing, but most of those listed are as dead to their families and former associates as though their bodies lay unidentified in France.

MORGAN CO. LEAGUE OF WOMEN VOTERS

There's a new organization, "Get-Out-the-Vote-Club" just formed in Washington, with its purpose to "persuade the chronic stay-at-home" to "be a citizen for one day at least." The following extract from Collier's is interesting to all citizens:

"In the less dramatic but equally important congressional election of 1922 there were 6,000,000 fewer ballots cast than there were in the presidential election of 1920. Consider the case of Michigan. The electorate voting was slightly less than 31 per cent., and the stay-at-home vote was more than 60 per cent."

"Now take another example, Tennessee. Only 18 per cent. of the legal vote was cast in the 1922 election and Senator Kenneth McKellar, the victorious Democrat, received only 12.5 per cent. of the eligible vote. When the 1922 votes were counted in Minnesota, it was disclosed that the Farmer-Labor party had elected Henrik Shipstead to senator. He received only 26 per cent. of the possible vote. Senator Howell of Nebraska was elected by 32 per cent. of the voters of his state; Senator LaFollette, Wisconsin, by 28 per cent.; Senator Lodge, Massachusetts, 22 per cent.; Senator Pepper, Pennsylvania, 18.9; and Senator Copeland, New York, 25 per cent."

1924 Election Calendar

ROOSEVELT SERVICE STAR

FLAG IN MUSEUM

Oyster Bay, N. Y. (AP)—The service flag which hung from Sagamore Hill, home of the late Theodore Roosevelt, during the World War has been presented to the Memorial Museum at Roosevelt House, New York City.

The flag, measuring three by four feet, and of the familiar red and white design, has four blue

stars worked in the center. It fluttered from an upper window of the Colonel's Oyster Bay home. It was placed there the day of enlistment of the first member of the family and not removed until the last of the Roosevelts returned from overseas service. The four stars were all decorated for bravery in action. Two of them were wounded and one killed.

CUBS ARE BEATEN IN EXCITING GAME

Dizzy Vance Fans Fifteen Batters, a New National League Record—Dodgers Take Contest 6 to 5

CHICAGO, Aug. 23.—Erratic support behind Guy Bush gave Brooklyn a 6 to 5 victory over Chicago today in a game in which Dizzy Vance, star twirler of the Dodgers, set a season's record for strikeouts by fanning 15 men. His feat also established a National League mark for modern time and came within one of tying the modern major league record, which was established by Rube Waddell who struck out 16 men while in the American League, July 29, 1908. Vance's best previous mark was 14 made against the Cubs in Brooklyn August 1st, when he fanned 14. Dizzy has fanned 194 this season and by winning registered his tenth consecutive victory and twenty-second win of the season.

The Cubs also contributed to the great game by executing a triple play, the first one here this season. With men on first and second in the second inning Dizzy lined to Barrett whose throw to Grantham doubled Stock before he could get back to the bag. Grantham then winged the ball to Cotter at first base before Griffith could get back for the third out.

PADDOCK SUCCEEDS IN LOWERING MARK

NEW YORK, Aug. 23.—Charley Paddock of the Los Angeles Athletic club, today broke the world's record for the 250 yard dash when he ran the distance in 25.5 seconds at the senior Metropolitan A. A. U. track and field championships. The team championship was won by the New York Athletic club with 81 points. The Newark Athletic club was second with 50 points.

Paddock, in cutting 2-5 of a second from the record made in 1888 by Charles Sherrill, then of Yale, and now a brigadier general, flashed away from a mediocre field at the gun and gradually increased his lead to ten yards at the tape.

LEAVING FOR COLORADO
Mrs. Charles Mackness and Miss Alma Mackness of 1303 West College avenue are planning to leave Sunday for Colorado Springs, where they will visit for a week. From there they are to proceed to Steamboat Springs to visit Miss Lucile Mackness, who has been attending summer school at the Perry Mansfield Camp. The return trip to Jacksonville, they will be accompanied by Miss Lucile Mackness and by Miss Eleanor Andre, who has also been attending school there.

GIBLON IS WINNER OF CHICAGO SPECIAL

CHICAGO, Aug. 23.—The three year old Gblon, owned by C. R. Riedinger of Lexington, Ky., won the \$15,000 Chicago Special at a mile and three-sixteenths at Hawthorne today, by beating out the Kentucky Oaks winner, Princess Doreen, by a neck at the wire after the most sensational stretch run in the history of Chicago racing. The race was witnessed by 25,000 persons.

Gblon broke the track record in scoring his victory, running the distance in 1:57 1-5.

The former record of 1:59 was established by Tangerine during the present meeting. Princess Doreen was second and Hopeless third.

TENNIS DOPE IN DOUBLES UPSET

BROOKLINE, Mass., Aug. 23. (AP)—Veteran tennis invaders were beaten back and veteran champions were dethroned when the Kinsey Brothers of San Francisco defeated Gerald Patterson and Pat O'Hara of Australia, for the national doubles championship today and Miss Helen Willis and Vincent Richards won a stirring match from Miss Mollie B. Mallory and William T. Tilden, II, national mixed doubles titlists for two years. It was triumph for America's younger school of players.

TWO SWIM RECORDS FOR WOMEN BROKEN

PITTMAN, N. J., Aug. 23.—Two championship records for women swimmers, one of them a national title, were broken at the meet of the Pittman Swimming club at Akeley Park today.

Agnes Gerakty, member of the Olympic swimming team and representing the Women's Swimming association of New York won the national 220 yard breast stroke championship for women by a new record of three minutes, 35 1-5 seconds.

Frances Clark of Philadelphia broke her own record of six minutes 27 4-5 seconds in winning the middle Atlantic 440 yard championship for women.

RED SOX FINALLY STOPPED BY INDIANS

BOSTON, Aug. 23.—The hitting of Jamieson, Sewell and Burns proved a big factor in breaking Boston's winning streak against Cleveland when the Indians defeated the Red Sox 8 to 6 today. Boston had held five straight decisions over the Cleveland Club. Catches by Plagstead and Summa and the fielding of Lutke featured.

Cuyler Gives Hornsby Hard Battle For Top

CHICAGO, Aug. 23. (AP)—From a lowly bench warmer, awaiting a chance to slip into the game as a substitute, to one of the brightest stars in the National League, is the remarkable rise of Hazen Cuyler, youthful outfield star with the Pirates.

Cuyler today finds himself battling the famed Rogers Hornsby, second base star of the Cardinals, for the batting championship of the league. He bagged eleven hits in his last five games, giving him an average of .383 and is trailing twenty-seven points behind Hornsby, who is topping the list with .410. Zack Wheat, the Brooklyn veteran, suffered a slight slump, dropping into third place with .366. The averages include games of Wednesday.

The rise of Cuyler, a rookie from the Southern League, reads like a page from baseball fiction. His chance came by accident when Max Carey, the Pittsburgh veteran, was injured. When Carey returned to the game, Manager McKecknie of the Pirates found Cuyler's services indispensable. His batting, fielding and sparkling base running was an inspiration to the Pirates who carried the fight to the Giants for the lead in the pennant race.

Cuyler, under the coaching of Carey, developed into one of the greatest base stealers in the league. Carey is leading with 30, with Cuyler and Heathcote of Chicago tied for second place honors with 23 each.

Jack Fournier of the Dodgers, leading home run hitter of the league, is basking in the total of 24, while Frisch of the Giants, is setting the pace in scoring, having crossed the plate 90 times, six within the last week.

Other leading batters: Fournier, Brooklyn .344; Young, New York .344; Bressler, Cincinnati .344; Roush, Cincinnati .343; Blades, St. Louis .325; Bottomley, St. Louis .323; High, Brooklyn .321; Kelly, New York .318; Grigsby, Chicago .318.

American League
Veterans of the American League are gradually crowding their way toward the top. Following the example of Eddie Collins of the White Sox, Ty Cobb, pilot of the Tigers; Tris Speaker, leader of the Indians and Harry Hellmann, Detroit slugger have worked themselves up among the leading ten.

Babe Ruth who continues to top the regulars dropped from his 400 mark of a week ago, to 396. However, he still has a comfortable lead over Bib Falk of the White Sox, who is in second place with 360. George Sisler, fell out of the 300 class and is way down in the list with an average of .298.

Ruth failed to increase his record of thirty-eight homers, but managed to get an average of one hit a game in his last four contests, giving him 158 hits for a total of 314 bases. Besides his homers his hits include 28 doubles and seven triples. By scoring twice he ran his run getting record to 116.

Cobb had made the greatest number of hits in the league turning in 163 blows. Eddie Collins, failed to add to his string of 33 stolen bases, but still holds a safe lead over his rivals.

Game is Played in Drizzling Rain With President Johnson as One of Spectators—Score 2 to 1

WASHINGTON, Aug. 23.—Washington won from Chicago today 2 to 1. Barrett's double following Mogridge's only pass gave the visitors their run while the locals tallied in the first on successive wild throws by Barrett and Kamm and in the fifth on McNeeley's double and Rice's single. President Johnson of the American League was a spectator at the game, which was played during a steady drizzle.

HORNSBY DECLARED BETTER THAN RUTH

NEW YORK, Aug. 23. (AP)—Rogers Hornsby, St. Louis Cardinal star whose hitting has been a major league sensation during the past week, is a greater batsman than Babe Ruth, in the opinion of John A. Heydler, president of the National League.

"I am convinced that Hornsby is the greatest batsman of all time," declared Mr. Heydler, who has just returned from a tour of his league's western circuit. Comparing the two kings of clout, the executive said:

"Ruth is a marvelous batsman. He is the longest hitter the game has ever known. But it is the greatest batsman of whom I speak, as an all-around day by day, year after year performer, talking into account the cold averages as well as the heat of the fray, hard hitting, regular hitting, is in my firm belief that the crown should go to the Texas boy—Hornsby."

REDS TAKE FINAL GAME FROM PHILLIES

CINCINNATI, O., Aug. 21.—The Reds won the series from Philadelphia by taking the final game today 3 to 2. It was a fast and well played contest in which Mays slightly outpitched Carlson. Mays did not allow a runner to get to third base except in the sixth when the Phillies bunched three of their five hits for two runs. The Reds scored the winning run in the eighth on a pass to Walker and singles by Bressler and Pinelli.

Burrus of Atlanta shot ahead of Guyon of Little Rock, going into third place with .358, while Guyon dropped into fourth with .352. D. Anderson of Chattanooga, eighth a week ago, also eased into the picture with an average of .352.

J. Anderson of Chattanooga is so far out in front, in bagging home runs that he feels certain of capturing the honors for 1924. He has scored 23, an increase of one over a week ago. Stewart of Birmingham, as a result of stealing five bases, boosted his total to forty six.

CUYLER'S GOOD WORK HELPS PIRATES WIN

PITTSBURGH, Aug. 23.—In a hard fought pitchers' battle between Kremer and Yeargin the Pirates triumphed over the Boston team in the latter's final appearance of the season in Pittsburgh by the score of 3 to 2. Two of Pittsburgh's runs were the result of the batting of Cuyler who hit a home run in the first inning and brought home Carey who had doubled in the third with a sharp single. The Pirates scored the winning run in the sixth on two singles followed by a sacrifice. The fielding of both teams was brilliant, the work of Traynor and O'Neill, especially standing out.

FAIR GROUNDS HORSES
GO TO PETERSBURG

Several of the horses now in training at the fair grounds track were yesterday shipped to Petersburg prior to the opening of the race meet there on next Tuesday.

W. A. Masters has entered Ben-le Chief and Flora A.; Marion Woods will drive Angelina Patch and George Dennis took Mabel and a green pacer; Frank Devine's Tommy D. was also included in the string for the Merion county meet.

There are at present about 14 horses in regular training at the track and more are expected shortly. The latest arrival is trainer Sims who is in charge of

Billy Patch, pacer, owned by Ralph Sims, and a runner owned by Oscar Pittsford, the horses both coming from Modesto.

Special attention is called to the fact that racing entries will positively close Monday night at 12 o'clock. No report has been made yet of the number of entries but the number is expected to be large for all of the events.

GOOD GAME EXPECTED
AT S. S. PARK TODAY

The Petersburg Merchants who give battle to the Indies this afternoon at South Side park, will probably prove one of the hardest teams of the season for the locals to beat. The lineup shows that all of their men are seasoned players and to top all this, they have handled two wallpings to the Tahula Greys who gave the Indies plenty to do when they appeared here recently, the locals winning by the close score of 2 to 1.

Pitcher Lowder is showing well in all of his games and the rest of the team are giving him gill-edged support, so, if the Indies show their usual form today, the Merchants will be welcome to the contest, if they are really good enough to win it. And the boys are surely anxious to keep pepped up for the games next Sunday and Monday with Beardsdown. It is rumored that in one of these contests Howard Fryman, the big boy from Alesy, will be on the mound for the Indies but this announcement has not yet been made by the manager of the locals. If Fryman does not come, there have been a great deal worse pitchers on the home lot than Hank Boyd in a pinch in case it is necessary to use him, but Mr. Boyd is too valuable at short to remove him if it can be avoided.

Here are the announced lineups for today's battles:
Merchants — Flanagan, 2b; Dorgan, 3b; Barber, 1b; Willard, cf; Fisher, lf; Johnson, rf; Newquist, ss; DeCamara, c; Gestner and Glasse, p.
Indies — French, cf; Clark, c; Ruble, 2b; Boyd, ss; Christopher, lf; Wilson, 3b; Carter, 1b; DePrates, rf; Lowder, p.

STATE WINS CONTEST
BY CLOSE MARGIN

The game Saturday afternoon at the State Hospital diamond between the State team and Alexander turned out to be a hum-dinger just before the finish, the hospital winning 7 to 5 in the last half of the ninth after two men were out.

The State started off with a bang, landing four tallies before Alexander began to get warmed up sufficiently for the fight. The visitors then began to climb and ended the first half of the ninth with the score tied 5 all; in the last half of the final session after two men were down and with one man on base, Panko, one of Burl May's most dependable men, stepped up to the plate and took a healthy swing that was healthy and then some, knocking the pill for a circuit and driving the runner in ahead of him.

Manager May has been slightly handicapped lately by some unforeseen changes on his team, but in spite of that fact his men showed well yesterday afternoon, his infield especially showing that with a little more practice at teamwork they will be able to give a splendid account of themselves in any semi-pro contest. The State team plays Franklin there this afternoon and should win handily.

The batteries for Alexander in the skirmish yesterday were Boggs and Heaton, while Fauwell and Rose did the heavy stuff for the State. The game was umpired by Towers of the Capps Twilight team.

YANKEES EVEN UP
SERIES WITH TYGERS

NEW YORK, Aug. 23. — The New York Yankees evened up their series with Detroit winning the second game of the series by a score of 8 to 1. Pennock pitching star of the world's champions, was in brilliant form, an error by Scott providing the way for Detroit's only run in the ninth. Only two runs have been scored on Pennock in his last thirty one innings.

The Yankees defeated Whitehill for the first time this season.

Mr. Firpo Is
No Bunk Artist

"All I've Got is a Right Hand," He
Says, "But That's Plenty"

Luis Firpo

New York.—There is at least this much to be said for the good Senor Firpo, he does not deal lavishly in the fragrant bunk.

The South American is back in this country to fight Harry Wills. A year ago he was battered to fragments by Dempsey. His crudities were clear to anyone who knew a boxing glove from an Indian love sonnet.

"Firpo will never do until he learns to cover up and to use his left hand," the erudite experts wrote.

It is the custom in ballyhooing prizefights to point out that a battler, beaten in a previous fight, has overcome all his old faults and is now an amazingly improved article.

You will recall a campaign of this nature was pushed energetically by gentlemen interested financially in the return of Carpenter to this country some months ago, a campaign to which Mons. Georges lent enthusiastic verbal assistance.

Against Dempsey Carpenter had shown nothing but a right hand and a glaring weakness in the clinches.

The new Carpenter, the fans were asked to believe, had perfected all these deficiencies and was, in truth, a completely refurbished fighting machine.

That there might be no doubt whatever as to the authenticity of the transformation, Mons. Georges himself personally as-

sured reporters that he was, indeed, a changed man.

It subsequently developed that the only difference between the Carpenter who quit Dempsey and the dashing Frenchman now collecting rare specimens of greenbacks in our midst was the manner in which he parted his hair.

Now the good Senor Firpo is not at all like this. He does not ask you to accept him as a new model with all the latest conveniences. He is in every respect the same guileless Firpo that our smart promoters had on display a year ago—and frankly admits it.

All he knows about covering up is that it is a genteel operation relating in some manner to the business of going to bed.

And if he is using his left hand any better it is because knives in American beaneries fit more gracefully into the fingers than the native Argentinian cutlery.

Mr. Tex Rickard and others interested in prolonging the box office career of the good senor tried to impress upon him the necessity of enlisting the services of the game," persisted Rickard.

"Fine points!" exploded the good senor in a rich homelander dialect, what do I need with fine points when I've got this?"

And he held aloft a big, shaggy right fist—the same fist that catapulted our Mr. Dempsey clear out of the ring at the Polo Grounds on the night of Sept. 14, 1923.

Matthews seemed to "pep" up Washington as it did the Athletics. From a second division berth, the club by a sensational winning streak finally wrested first place from the Yankees.

Perhaps the happiest moment of Matthews' career was his Philadelphia debut with Washington after Mack had sent him to the minors.

Washington beat the Athletics four straight games. Matthews' play featured all of them, three of the victories being largely due to his individual efforts in the field and at the bat.

The critics of Mack took him severely to task for disposing of Matthews. The Athletics at the time were in a bad slump, making Mack an ideal target for criticism.

"Matthews is a flash," was Mack's reply. "I wish him the best of luck but I doubt if he will continue to play regularly for Washington for much more than a month. He is a hitter who can be surrounded, and when he is stopped at the bat his usefulness is greatly impaired."

Matthews is back in the minors, two months after joining Washington. Mack apparently had the right dope.

However, there is no denying that Matthews is a great showman. His style provides plenty of drama. Incidentally he inspired the Nationals to bigger things in baseball.

Unlike the Athletics, the Washington club continued to carry on, after Matthews had faded out of the picture.

EQUIPPING ILLINI
TEAM BIG TASK

Urbana, Ill.—The task of equipping the University of Illinois football team is almost as big a job as coaching itself. Ben Cracker, equipment manager, and Matt Bullock, trainer, have the difficult job of keeping the "fighting Illini" in good trim and ready for the fray.

Every known piece of equipment for a football player has its place in Ben's storerooms. He has enough material to fully outfit nearly 500 men, should that number border. He has 600 pairs of pants, 600 practice jerseys, 100 game jerseys, 1000 pairs of shoes and countless numbers of helmets, stockings, quarter sleeve jerseys, shoulder pads, and other equipment.

Practically all of the equipment is designed and made to Illini specifications. The pants are double sewed. Just large enough to insure plenty of movement and have a belt inside the fibre, saving the tearing of the loops and holding the pants closer to the hips. Two sets of blue jerseys are used, one for practice and the other, numbered with eight-inch figures, for games. Beneath the jerseys are worn quarter sleeve cotton shirts. The shoulder pads are Illinois designed and are much lighter than the ordinary type.

The shoes are of the lightest leather possible. A special pair equipped with mud cleats are used on slippery fields. White wool feet are worn with footless blue hose. On the sidelines the substitutes are kept warm by half length sheepskin and "gob" coats.

All of the pads and braces are hand made. In all cases, each injury requires a different type of pad. They are made from aluminum, fibre and rubber and are covered to protect the other players.

The care and repair of the equipment requires much time. Each evening after practice all of the suits are hung in the steam dryer and are thoroughly dried. The jerseys and stockings are cleaned regularly. The helmets are always kept bright and are repainted as often as need be. They are orange in accordance with the Illinois color scheme—orange and blue.

Trainer Matt Bullock has medical supplies galore ready for any emergency which may arise. He has 21,000 feet of two-inch adhesive tape, 8,640 feet of two-inch gauze bandages, salves, spray solutions, cough syrup, alcohol, a barrel of salt, and iodine. He also has plaster paris bandages for the making of casts. Even with these large quantities, Matt often has to replenish his stock.

Yale will play to a million dollar "gate" this fall, if you want to know the real difference between old-style and modern football.

Probably the first thing Mars will want to know, when we do get together, is who's going to beat the Yankees.

No one knows more about the points of the country than Mr. O'Goofy. "For that reason I think I'll become a chiropractor," he says.

Dancers, in the future, must keep three inches apart, but box fighters may go right on hugging and clinching as in the past.

Mr. Hagen is teaching golf on the phonograph now. His business slogan is, "Take one lesson and break a record."

There may be truth in Kid McCoy's claim that he is not crazy. His record shows he never challenged Dempsey.

The old-fashioned batter whose middle name was Fight now has a wealthy young son whose full name is Grab The Jack.

True, it's been a long, hard summer, but remember you were not asked to watch Jess Willard stage a comeback.

The next Olympiad will be held in 1928. This gives the stay at home four whole years to point out all the mistakes the American coaches made at the last one.

Tennis experts say Little Bill is no longer dangerous. But the boys in the back room insist Little Joe is as tough as ever.

Most astonishing thing about the success of the Dawes' plan is that it went over without Tex Rickard's help.

Golf and America were discovered the same year. And we suppose the world would have a hard time getting along without either of 'em now.

Dope Favors a Youngster
Breaking Through at Merion This Year and Cummings is Getting Turned Up

By Joe Williams
We have the prophetic word of Mr. Joseph Horgan, himself, America's most ancient caddy, that his protegee Dexter Cummings of Chicago, will spread-eagle the field in the National amateur at Merion, Pa., next month.

It seems that young Dexter, twice holder of the National collegiate title, has put something over on the rest of the boys. Dexter has been over in England working out daily under the practiced eyes of Harry Vardon and George Duncan. Not only has the westerner been getting plenty of tuning up in real competitive matches but many invaluable pointers from two great players as well.

This is somewhat of a novelty in American golf. And what if young Cummings should win? America could not gracefully claim all the credit. Messrs. Vardon and Duncan would be deserving of some recognition. It might be necessary, in the interest of international harmony, to split the honors two ways.

Seriously, Cummings has a good chance at Merion. So have a flock of other youngsters who will be on hand striving for Max

Hear U. S. Senator Fess of Ohio, and William Mather Lewis of Washington, D. C., at Chautauqua today.

Marston's crown. Practically every large golfing center in the land will be sending at least one young hopeful to the annual classic.

The far west has Von Elm of Salt Lake and McHugh of Frisco, if he comes. The south, besides the brilliant Jones, has Wenzler of Tennessee, Carlson of Texas and Renshaw of Alabama; the middle west has Lamprecht of Ohio, Johnston of Minnesota and Manion of Missouri; the east has Dick Jones of New York and Crookston of Pennsylvania.

Any of these is capable of top notch golf over an extended period and the list is by no means complete. The chances of a new-comer breaking through at Merion are better than fifty-fifty.

The odds are all against Marston repeating. Bobby Jones seems to be inescapably fixated in match play. Evans is fading; Guilford is inconsistent. No one knows how good or bad Outmet is this year.

Sweetser ought to be dangerous. Willing, the Seattle dentist, is a rare plugger and will give the field a lot to worry about if he qualifies. This about closes the veteran list. A crusading youngster, in a militant mood and inspired stroke, ought to have no trouble writing a new golf chapter this fall.

MORGAN COUNTY MAN WEDS DANVILLE GIRL

Earl Brogdon and Miss May Henry Are Married at Groom's Home Saturday Afternoon—Will Reside Near City.

Robert Earl Brogdon of Jacksonville and Miss May Henry of Danville were united in marriage at 1 o'clock yesterday afternoon at the home of the groom's parents, two miles northeast of the city. The ceremony was performed by Rev. E. C. Rutherford, and was witnessed by the immediate family and intimate friends of the bride and groom. They were attended by Miss Mary Hennessey and Ervina Brogdon, brother of the groom. The bride is the daughter of Mr. and Mrs. Francis Henry of Danville, and has been for a number of years a lieutenant in the Salvation Army. She was stationed in command of the local corps at one time, and it was then that she and Mr. Brogdon first met and their courtship began. She was more recently stationed as an officer in the Quincy corps.

The groom is the son of Mr. and Mrs. William T. Brogdon, residing northeast of the city, and is a farmer by occupation. The young people will reside for the present at the Brogdon home. A wedding supper was served yesterday evening at the home of the groom's parents, and was attended by several relatives and friends of the couple. Mr. and Mrs. Brogdon expect to leave soon for a short visit with relatives at Danville.

HOWITZER BOYS BACK WITH HIGH CREDITS

Captain Says Men Earn a Praise of Regular Army Critics While at Camp Grant—Was Best Outfit of Kind in Division.

Fresh from two weeks on the rifle range and maneuver grounds of Camp Grant, the local Howitzer company returned at 1:15 o'clock yesterday afternoon to again take up the ways of peace. Capt. Wesley James stated yesterday that the boys left a high record in camp and received commendations from the regular army officers who inspected the division. The experienced army men told Capt. James that he had the best howitzer outfit in the 23rd division.

As a part of the training, each regiment in the division was given a war problem to work out. The 130th infantry, of which the local company is a part was set to capture a hill. The army critics who watched the maneuvers praised the howitzer boys for their steady and timely advance on the hill, and had no word of criticism for the local unit. Sixty-three men and two officers, the full enlisted strength of the company, were in camp. The company is one man above peace strength, and this is the first time for years that the local company has a hundred percent attendance at the training camp. The men enjoyed good food and received good care from non-commissioned and regular officers. No sickness or accidents were reported.

On the return trip to Jacksonville, the men had two large coaches and an extra large baggage car for their large amount of equipment. When the special troop train reached Delavon, Capt. James telegraphed to this city and ordered a good dinner for the boys upon their arrival. After dinner, the men got busy and unloaded their baggage, storing their equipment in its accustomed place in Armory hall. The work was finished late yesterday, with all articles checked in, and the training season of 1924 passed into pleasant memory.

FORTY AND EIGHT TO INITIATE CLASS

Will Stage Promenade Tuesday Evening—Fifteen Candidates to Take Work.

Notices have been mailed to voyagers of La Societe des 40 Hommes et 8 Chevaux de Voiture No. 513 of a promenade which will be held in the city on Tuesday, August 26 at 7:30 o'clock. A large contingent of "Poor Goots" have been signed up for this meeting, which will be the last before the state convention. It is expected that at least fifteen new members will be added at this session and it is probable that candidates from other counties may be initiated. Chief de Gare Homer G. Bradney has been working hard to line up as many former service men for this organization as possible before the state meet.

Morgan county has one of the largest and liveliest 40 and 8 organizations in the state and the members with their drum and bugle corps, jazz band and French train expect to attract considerable attention at the state convention at Champaign next week.

ATTENDED CONFERENCE IN SPRINGFIELD

Two hundred nuns, teachers in the Springfield diocese of the Catholic church, attended a convention Friday at Ursuline academy in Springfield. The program began with the celebration of high mass, with Rev. E. J. Cahill as the celebrant.

Later Father Cahill delivered an address on the subject "Christ the Divine Teacher." Rev. Father F. F. Formaz was the speaker at a program later in the day and subsequently Rev. Father Costello gave an outline of the work done in Rount college in this city. Another Jacksonville resident who had part in the program was Miss Margaret Ring, who made a talk on the Ward method of music appreciation.

LOCAL SCOUT STRONG FOR CULVER SCHOOL

Martin Gehring Gives Glowing Report of Woodcraft School, Where He Spent Ten Days—Took Honors in Track Meet.

Scout Martin Gehring, who has been attending the Culver Woodcraft school for ten days, has returned to the city and brings back a glowing report of his experience in the big scout camp on the shores of Lake Maxinkugsee near Logansport, Ind. Mr. Gehring was one of ten visiting scouts at the school during that particular period, all of whom were entertained as guests of the school by virtue of a promise made to scout councils throughout the country. Four of the boys were from Wisconsin, five from Michigan and Gehring was the only one from Illinois.

The local youth came home a first class scout, having passed his swimming test while at the camp. He now expects to advance in the work, obtaining eventually enough merit badges to make him an Eagle Scout. He says he gained much inspiration from the Woodcraft school and has a much better grasp of scouting than ever before. The four hundred boys in the school were high grade fellows, picked from all parts of the United States. Most of them were from twelve to sixteen years of age, but there were also two packs of wolf cubs or junior scouts, in training at the school. From 7:45 to 10:30 o'clock each morning, the boys worked in their classes. There were courses in signaling, swimming, boxing, nature study, first aid, etc. Gehring took the courses in swimming, first aid and nature study. For the last of these subjects the boy had the big woods surrounding the camp as a studio, and learned much of birds, trees and plant life. During the remainder of the morning after 10:30 the boys were free, but could not leave the camp, which was constantly under military discipline. All instructors were captains and lieutenants in the regular army.

In the afternoons, the boys had drill, swimming, and scout tests. They marched to mess three times a day in military formation. At night there were picture shows on the lawn, and boxing tournaments in the afternoons, and a track meet occurred each week. In the meet that was run off while Gehring was at the school, he came off with some honors, winning first in the shot put and second in the 220-yard dash.

PLAN GREAT DAY AT MEREDOSIA THURSDAY

Committee Meets With Mayor Berger and Decides on Program—Delegation to Leave Here at 10 A. M.—Clubs to Meet in Evening.

The "On to Meredosia" committee of the Chamber of Commerce met yesterday morning with Mayor L. F. Berger of the city, to arrange a tentative program for Jacksonville Day at Meredosia homecoming Thursday. It was decided that the Jacksonville Community Band, which is being furnished by the Chamber of Commerce for the day, will go to Meredosia early, arriving in time to lead a procession of merchants and citizens to the city limits to meet the Jacksonville delegation.

All cars going in the big caravan from here will assemble in front of the Chamber of Commerce to start promptly at 10 o'clock. They will arrive at Meredosia in time for a big street parade at 11 o'clock. Floats, many of them with novel effects, will form the principal part of the parade.

At noon the church ladies of Meredosia will serve a chicken dinner. They are arranging to feed 200 persons at a sitting, and the dinner will be one of the big features of the homecoming. After dinner President Holdebrand of the Homecoming Association will deliver the address of welcome, and Cole Y. Rowe, president of the local Chamber of Commerce will respond. The remainder of the afternoon will be taken up with addresses by prominent speakers, vocal and band selections, free acts, etc. Burgeo soup and fried fish will be served in the evening.

The Rotary, Kiwanis and Lions clubs of this city are arranging for a general get-together meeting at Meredosia at 6 o'clock Thursday evening. There will be group singing and speeches. The Community band will remain over night to play during the second day of the homecoming.

KILLS PIGEON WITH LETTERED LEG BAND
Allen McCullough of Winchester yesterday brought to the Journal office two leg bands which he had taken from a pigeon which he killed near Winchester this week. One of the bands was a coral colored celluloid band and the other was an aluminum band with letters and figures on it, U C M 3230 A J 19.

Mr. McCullough stated that no message was found on the pigeon and he was at a loss to know from whence the bird came.

Mr. and Mrs. O. H. Branstetter and two daughters, Aileen and Nell of Glasgow, Ky., are visiting at the home of J. C. Simmons, Mrs. C. C. Simmons and other relatives.

RAIN CAUSES LIGHT CHAUTAUQUA CROWD

Opera Company Gives Good Program Before Appreciative Audience—Dr. Lewis and Senator Fess to Close Assembly Today.

Rain, which threatened for several hours yesterday evening, arrived in time to interfere somewhat with the night session of the chautauqua at Nichols Park. The audience was light, and when the storm arose, many left the tent and traffic out of the park was heavy for about an hour.

The De Sellem-Folsom Operatic Company gave a high class program of vocal, operatic and instrumental numbers, and in spite of the interference of the storm, succeeded in pleasing the audience. The company also appeared in a short introductory concert in the afternoon, and was followed by the Children's Circus, which lived up to the reputation given it and delighted a large audience of boys and girls.

The work of the De Sellem-Folsom company last night consisted of light opera selections, French songs, instrumental trio selections, and violin and piano numbers. The program was a feast for artistic music lovers. Today will close the 1924 chautauqua. Sessions will begin at 10 o'clock this morning with a union Sunday school service, superintended by C. L. Mathis. At 11:15 Rev. Gerald B. Winrod, who has given such a large number during the chautauqua with his morning lectures, will deliver the sermon. The Jacksonville Community band will fill its final engagement with the chautauqua and furnish the music for the afternoon and evening programs. The band has given splendid satisfaction and will no doubt be booked for the 1925 assembly. The afternoon lecture will be delivered by William Mather Lewis, president of George Washington University, Washington, D. C., who is one of the prominent educators of the country and an authority on economic subjects. Dr. Lewis has traveled extensively in England, France and Germany, studying their systems of education. He has served as Director of the United States Treasury Department Savings Division. His campaign for thrift, under the Treasury Department was carried into every state in the Union. Dr. Lewis will bring a message of supreme worth in his lecture, "Human Capital."

One of the heavy numbers has been saved to close the chautauqua this evening. This is U. S. Senator Simeon D. Fess of Ohio, educator and congressman. Senator Fess served the Ohio Northern University as Professor of American History, was a lecturer on the faculty of Chicago University under President Harper, was president of Antioch College, Ohio, member of the Ohio Constitutional Convention of 1912, holding the chairmanship of the committee on education, was elected to Congress in 1913 from the Sixth Ohio district and was elected United States Senator in 1922. As an author he is known for his work entitled, "Outline of American History," and "American Political Theory."

FORMER RESIDENT VISITS IN CITY
G. H. Vanarsdale and son, Leslie, of Pueblo, Colo., are spending several days as the guests of Mrs. J. Leach southeast of city. Mr. Vanarsdale is a former resident of Jacksonville having been employed at the Jacksonville post office about twenty five years ago. Mr. Vanarsdale stated that at that time clerks and carriers were receiving \$600 a year with no vacation, while the same positions now pay \$1800 per annum and allow a two weeks vacation. He worked six years on this salary and supported a family of six children.

Mr. Vanarsdale's son, Leslie holds a responsible position as secretary to the vice-president and general manager of the Colorado Fuel and Iron Co.

ROCK ISLAND WOMAN HAS MOTHERED 200 HOMELESS CHILDREN

Managed to Care for Them
in Addition to Six
of Her Own.

ROCK ISLAND, Ill. (AP)—Mrs. Etta B. Hendren, Rock Island's "professional mother," who, during her 59 years of married life has "taken in" more than 200 homeless children, cared for them during their infancy, and raised them to manhood and womanhood, has given up active mothering at an advanced age of 83 years.

A mother of six children of her own, a foster mother to more than 200 others, a parent of two by adoption, and a godmother to one child, raised from babyhood, is the record of Mrs. Hendren, during her married life.

"At first, I 'took in' children only occasionally," she said. "I was always promised remuneration, but only in a few cases have I ever received any money for

keeping the children. Most of the time it was just owed to me." "I have taken many small children and raised them until they were able to take care of themselves," Mrs. Hendren said. "I took three boys, who were little more than infants, and raised them. They went off to war. When they returned they came to see me the first thing after getting back to the United States."

Mrs. Hendren is the widow of S. D. Hendren, Rockford Civil war veteran. She receives a pension from the government, as a survivor of her husband. Nearly all of the pension money has gone toward keeping of her children. Bible training and kindness are the two prime factors of upbringing of her children, she says. The old Hendren family Bible, now in her possession, contains the names of all her "children" and records of when and where they were born.

Mrs. Hendren, though 83 years old, is still in good health, and very active. However, she has given up her practice of "taking in" homeless and friendless children.

"Little Charles, my latest boy, will stay with me until I die, and then somebody else must take care of him, the aged mother said. Charles, an adopted boy, is five years old. He was brought to Mother Hendren when he was a year old, and has stayed at the home ever since.

AMERICAN LEGION IS MAKING SEARCH FOR DISABLED VETERANS

Search For All Entitled to
Relief Under Reed-
Johnson Act.

BLOOMINGTON, Ill. (AP)—A careful check of all wounded or disabled veterans in Illinois is being carried on through the local units of the American Legion to locate all former soldiers entitled to relief under the Reed-Johnson act. The census is being made in order to inform all veterans entitled to compensation or treatment under the law, and aid them in filing their claims.

Explanatory booklets and an analysis have been sent to the post headquarters where in turn the members of the posts are informed as to their qualifications for benefits to be derived from the measure.

The benefits of the act, according to the analysis, are limited to those who suffered death, injury or disability, or aggravation of existing disability existing prior to examination, acceptance, or enrollment for service between April 6, 1917 and July 2, 1921.

Authorization for the extension of government facilities and for contracting, if necessary, with state, municipal or private hospitals for time not exceeding three years is provided. The old law allowed contract for five years.

The provision for the boards of discipline and moral are repealed in the Reed-Johnson bill, in their entirety, according to the Legion analysis. This means that no persons suffering from certain listed diseases shall be denied compensation while in a veteran's hospital as a patient, by reason of wilful misconduct.

The rate of \$100 per month for permanent and total disability is continued. The "loss of the use of" and the loss of hearing is added to the statutory, permanent and total classification. Compensation for the loss of eyesight is increased to \$150 per month with \$50 more, if, in addition, there is the loss of one or more limbs.

Vocational training must be started before June 30, 1925, the new bill provides. Training allowances will be paid for two months after rehabilitation, but all allowances and training will cease not later than June 30, 1926.

Mr. and Mrs. J. U. Collins and family will spend Sunday as guests of Adam Geier and family at Greenfield.

Preventing Diseases
Slowly but surely the idea of preventing disease rather than waiting to cure it is taking root in the popular mind. Medical colleges which a few years ago paid no attention to instruction in preventive medicine are today including it in the regular course of instruction.

Certain diseases are now classed as "preventable." Since the treatment for the cure of different diseases is different, so are the measures for the prevention of diseases different. In fact, the measures for prevention are more definite and specific in most cases than measures for cure.

Let us consider two well known diseases and compare the relative values of preventive and curative treatment.

Smallpox—There is no known specific curative treatment. When a person contracts the disease he may be marked either for the grave or "marked for life." The severity of the disease depends upon Providence alone, however, is a safe, sure and harmless protective measure. The advantages of preventive measures against smallpox as compared with curative are absolute.

Diphtheria—We are fortunate in having an antitoxin which will cure diphtheria if the treatment is given early enough. Failure, however, of parents to call a physician in time and sometimes failure by the physician to make promptly a diagnosis oftentimes robs curative treatment by antitoxin of its marvelous results. Diphtheria antitoxin can be given to exposed persons and it will give protection about a month. The best way to prevent diphtheria, however, is to give toxin-antitoxin which will confer an immunity for a period of years. Toxin-antitoxin is given in three doses one week apart. As a rule there is no reaction whatever. All parents should see that their children are immune to diphtheria.

Taking Care of Babies
A few days ago while attending one of the Chautauqua lec-

tures at Nichols Park the writer observed a mother with a tiny infant in her arms. The day was hot, so much so that many persons preferred the shade of the trees to the heat under the tent. The baby was fretful, but the mother was very careful to see that two warm wraps were held securely around him.

If the child could have talked, he probably would have said, "Please do not punish me so by keeping me in such an oven."

Remember, babies should have clothing suitable for the weather. If the mother at the chautauqua who had her baby too warmly clad or any other mother in Morgan County who is interested in the question of clothing the baby will write to the Health Department, Jacksonville, Ill., that department will gladly send full instructions covering this question.

OVERSEAS ROAD FOR AUTOS UNDER WAY

KEY WEST, Fla. (AP)—Contracts have been signed and things are shaping themselves for an early beginning on the first units, at both ends, of the long dreamed-of overseas highway between Key West and the mainland of Florida, a distance of approximately 150 miles.

Contracts signed by the county commissioners of this (Monroe) county call for construction of the roadway and bridges from Stock Island to Saddle Bunches and the causeway and bridge from Key Largo to Dade county.

Approximately 25 miles of the road are provided for under the contracts just signed about equal divided in distance at the two ends of the line. Stock Island, upon which the city of Key West is located, is about two and one-half miles from Boca Chica and the latter is approximately one mile from Saddle Bunches, which with Sugar Loaf, will make it possible to extend the road for more than 15 miles without further bridging. After leaving Sugar Loaf going eastward an other stretch of islands makes it possible to extend the road 30 miles or more with minimum bridging.

The undertaking represents one of the most spectacular pieces of construction in the country, and its completion will match the famous overseas railroad built by the late Henry M. Flagler. The latter road, undertaken down the east coast of Florida about a quarter of a century ago, later was pushed on to this city by throwing up of coral rock from the bottom of the sea upon which to build the roadbed for mile after mile.

HUMAN NEGLIGENCE PRIMARY CAUSE OF FOREST FIRE PERIL

Campers, Motorists, Fishermen and Others Show
Carelessness.

SAN FRANCISCO. (AP)—The great forests of firs, pines, spruces, hemlocks, redwoods and sequoias that stretch over the states of the Pacific Coast have been menaced more seriously by fires this summer than at any time in recent years. California is in the grip of a protracted drought, was the worst sufferer.

Despite the tinder-like condition of the California national forests, where the most disastrous of the fires have burned, Paul G. Redington, United States district forester here, is of the opinion that there would have been virtually no fire hazard, and would not be at any time, if human carelessness could be eliminated.

In a recent statement, Mr. Redington attributed to negligence 657 of 839 fires in the state this year.

"About 80 percent," he said, "are caused by careless campers, motorists, fishermen and others who frequent the forests. It is true that every summer a certain number of fires are started by lightning, but we do not fear the lightning fires. Generally they are started in exposed places at high elevations, spots discerned by our lookout men. It usually is a much simpler matter to put them out than to check those of human origin. Campers are apt to cause blazes along stream beds, in places less cool and less accessible."

So serious has the situation been in the California forests that the federal forester arranged for United States soldiers to patrol certain districts of the national reserves where the hazard was greatest. The federal forest service maintained a force of 650 men in this state thruout the summer, and at times, when several huge

ALASKAN MALAMUTES ARE BECOMING SCARCE

ANCHORAGE, Alaska. (AP)—The malamute dog, for many years the famed steed of the north, apparently is destined to go.

With the coming of railroads, dog-teams were driven farther into the interior. And now the prevalence of reindeer herds and the growth of the market garden have caused restrictions to be drawn around the malamute until he is coming to be classed a nuisance in the more settled parts of southern Alaska. The malamute had his genesis in the wolves and wild dogs of the north. All fowls and quadrupeds were his common prey. But when, in more modern days, a malamute began pulling down reindeer and the livestock of farmers, he was treated as a wolf and hunted down.

Owing to the light demand for dogs, it is difficult to procure pure-bred specimens south of the Yukon, and the one-time aristocrat of the Arctic is becoming mixed with the blood of so many mongrels that he has almost lost his identity.

It was held necessary to close to the public large areas of the California national forests. Such closing never would be required could the element of negligence be removed, the district forester said.

He and other officials expressed the opinion that education was the only weapon to combat this carelessness. With this in view, they have placarded the state with posters and notices reminding people to put out their camp fires carefully and not to throw unextinguished matches or cigarettes into brush.

Wallace Holscher of Meredosia was among the callers in the city yesterday.

William White of Murrayville was a caller in the city yesterday.

FUTURE OF WHITE HALL BARI IN DOUBT

Organization to be Subject of Consideration Monday Night at Meeting of City Council.

White Hall, Aug. 23.—There are two band organizations in Greene county, located at Roodhouse and White Hall. Both have been under the special instruction of J. Bari Johnson, recognized as the leading band man in this section of the state. It has been rendered necessary on the part of the White Hall band to dispense with the services of Mr. Johnson, after the organization had attained a proficiency

higher than in any time in the long history of the White Hall band, and the future of the organization is in doubt. This will be determined Monday night when Director A. E. Barrow lays the situation before the members at the tri-weekly rehearsal. The members desired to retain the services of Mr. Johnson if the condition of the finances would permit.

The band has filled recent engagements for the benefit of the community at an actual cash outlay of money, for which there seems to be no return either direct or indirect, and pay for long past services remains due. The address by Fr. Roy L. Smith at the chautauqua last Wednesday night brought forward the

apathy toward home talent in a manner that sank deeply in the minds of the vast body of hearers, and there must be a change in this attitude if such communities as White Hall and Roodhouse are to retain such creditable band organizations as they at the present time possess. Dr. Smith frankly declared that such fellows as he receive as much for one engagement that would be an incentive for better effort on the part of local people, who possess talent sometimes superior to chautauqua talent, that would cause thus recognized home talent to take on an air of ambition that would bring about a complete change.

Director Barrow declares that he intends to lay the cards on the table Monday night for such action as the members see fit to take. The provision of quarters by C. A. Ruckel in the basement of his business building without expense is the most consideration that the band has received.

HAIR FELL OUT FROM ECZEMA
In Little Water Blisters. Cuticura Healed.
"Eczema broke out on my scalp in little water blisters. It itched badly causing me to scratch, and then it would burn like fire. I could hardly stand it at times. My hair began falling out, and became very dry and thin. The trouble lasted about six months. I began using Cuticura Soap and Ointment and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Cora B. Road Building Busiest Industry For 1925 Says Babson

Statistician Thinks Record Will be Broken During Next Fifteen Months

Babson Park, Mass., Aug. 23.—"What will be the most active industry during 1925?"

The question was put today to Roger W. Babson, who promptly answered, "Road Building." The statistician's reason for selecting this above general building, electrical manufacturing and several other industries which have considerable promise for the new year is the fact that roads must not only be built but must be rebuilt—they wear out.

"In spite of the fact that we expended \$361,837,000 in 1923 on new road construction and set a record at about three and one half times 1913," says the statistician, "present indications point to a new high mark and an even greater volume of road building during the next fifteen months. An analysis of the present situation leads me to believe that it will be a most active industry during 1925."

"Much of this road building just now is due to the fact that money is available for this purpose at low rates and the Government aid can be enlisted to carry a large part of the burden. Since 1916 the Government has made available the total of over half a billion dollars for this type of construction. An additional seventy-five million dollars has been appropriated to be apportioned to the various states for highway construction during the coming twelve months. Some thirty-two thousand miles of such road has been completed with seventeen thousand miles under construction at this time. Some twenty-five hundred miles has been approved but is not yet in the process of building. The total system of roads which will be completed under the provisions of the Federal Highway Act of 1921 will constitute a net work of approximately 175,000 miles. Less than half of this work has been completed and the balance still to be built argues for a tremendous activity along this line.

"It may seem to some of you, who live in fairly populous districts, that road building is nearly completed and that we will soon have only the work of maintaining our highways. The statistics, however, do not bear out this point. We have in our sum total of surfaced and paved roads some 430,000 miles at the present time. The entire road mileage of the country, however, is reported at about 2,940,000. In our most densely populated states a maximum of 40 percent of the roads have been surfaced. In many important states less than 1 percent of the highways have been so treated.

"This pending road building program will not only employ a great many men at good wages but will directly benefit several important industries. A quarter of the entire cement output, for instance, goes into road building.

Watch your pimples vanish

Why? Pimple-Poison goes when Red-Blood-Cells increase! S. S. S. builds these Red-Blood-Cells!

You can be sure of this, nature has no substitute for red-blood-cells. Pimple-poison can't live in the red rivers of your blood as long as there

Every woman, every man, can now have a face clear as a Rose-Petal! are enough rich red-blood-cells in it. More red-blood-cells! That is what you need when you see pimples staring at you in the mirror. Blackheaded pimples are worse! Eczema is worse yet! You can try everything under the sun, you'll find only one answer, more cell-power in your blood! The tremendous results, produced by an increase in red-blood-cells is one of the A. B. C.'s of medical science. Red-cells mean clear, pure, rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatic impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1826, as one of the greatest blood-builders, blood-cleaners and system strengtheners ever produced. S. S. S. is sold at all good drug stores. All over America, they became better automobile buyers by seeing Oakland's "week of proof"—or some part of it.

They know what Oakland will do, because they saw Oakland show features of design and performance that all other motor cars must eventually have.

If you did not have an opportunity last week to see why the True Blue Oakland is a year in advance of its field, drop in to-day or to-morrow, or any time.

Drive it yourself. Road-test this True Blue Car. Then you will know that Oakland is building one of to-day's very finest motor cars—and selling it at a very low price!

BAPTISTS TO CONVENE IN WHITE HALL TUESDAY

White Hall, Aug. 23.—Another large Baptist gathering is to be held in White Hall next week with the convening of the annual convention of the Greene-Jersey Baptist Association on Tuesday. Tuesday evening will occur the outstanding feature of general public interest, when there will be a parade of Baptist men, participated in by two bands, Ford's saxophone band of Carrollton and the White Hall band. This will be followed by a monster banquet in the basement of the church, at which there will be speakers of state and national prominence in support of the men's movement, which movement has been of pronounced importance in the First Baptist Sunday school. Judge Harry L. Chapman promises a large delegation from Jerseyville for this session, saying: "We are planning to have a representation of forty or so. I will be there. We will come with banners flying." At this time will be launched a movement for organizing a Baptist Brotherhood of Greene and Jersey counties. The ladies of the church are preparing to serve dinner and supper to the visiting delegates on Wednesday and Thursday.

SOUTHERN CALIFORNIA PLEASURE IS COSTLY

Los Angeles. — Forty million more people attended Southern California theatres and places of amusement in the last fiscal year than during the year previous, according to figures compiled by the Collector of Internal Revenue here.

During the year ended June 30, 1924, the total attendance at places of amusement was 191,443,072 as compared with 151,298,669 for the year terminated June 30, 1923.

The number of persons attending theatres and similar places of recreation is disclosed by the admission tax, which amounted to \$3,190,718 in 1923-24, as against \$2,552,644 for the previous fiscal year an increase of \$638,074.

An increase of \$7,452,658 was shown in the amount spent for amusements last year. The total amount spent was \$36,465,384 for the last year before.

According to figures tabulated, the amount spent for all forms of amusements is steadily increasing, as shown by the theatre attendance of 17,900,000 in May, 1924 compared with 14,941,000 in May, 1923.

EUROPE LIKES U. S. SMOKING TOBACCO

WASHINGTON, (AP)—American ingenuity, in developing the European taste away from Turkish brands of tobacco in favor of the American product, has developed a great field for the sale of American tobacco in foreign countries.

T. L. Hughes, chief of the tobacco section of the commerce department, in a statement summarizing his observations on a recent tour of 11 European countries said he found a greatly increased demand for cigarettes, increased in Germany from 12 billion in 1913, to 23 billion in 1923. The increase in other countries has been proportional. America produces about 35 percent of the world's total tobacco crop.

"How Does That 'One-Shot' Lubrication System Work?"

It is not strange that owners of the 1925 Cleveland Six are being actually stopped on the street.

The fame of the "One-Shot" Lubrication System is spreading with wildfire speed—

—for this exclusive feature of the 1925 Cleveland Six does away with the grimy task of greasing the car by hand.

Simply by stepping on a plunger, you lubricate all moving chassis parts.

Whenever a squeak develops—down goes the plunger and the squeak is silenced. No more neglected chassis lubrication with its rattles and repair bills. No more leaving the car for half a day to have it properly greased. You should see this marvelous feature. And you yourself should test the

Mileage Motor

This new and larger power plant ranks the 1925 Cleveland Six among the finest performers of the day. Its hill climbing power, its flashing acceleration, and its better-than-60-miles-an-hour speed will literally amaze you.

Balloon Tires

Nor does any car ride with such flawless comfort—thanks to a longer wheel base, scientifically set springs, and the super-size balloon tires with which all models come equipped. Four-wheel brakes are optional at a slight extra cost.

Don't wait to have your neighbor tell you how superb this new car is. Get behind the wheel yourself—and get a thrill.

WILL SAIL FOR SOUTH AMERICA

Misses Sarita Jones, and Elva Becker, students at the Illinois Woman's College for the past four years, writes friends in the city that they will sail for Santiago, Chile, Miss Jones' native city on September 27 leaving New York City by the South Pacific Line on the steamer "Teno."

Both Miss Jones and Miss Becker have accepted positions with South American colleges, having studied during the summer session at Columbia University, New York City.

B. S. Smith and wife of Winchester were callers in Jacksonville Saturday.

Carl Beecham of Meredosia was among the callers in the city yesterday.

Joy for the Children

There's no run greater or more healthful for the little folks than a bath tub with warm water—

[A HOTSTREAM]

gas tank water heater is a great help to mothers and children. It ends the time and labor spent in heating and carrying kettles.

Let us tell you how inexpensive they are.

ANNOUNCERS

Prominent among the broadcast announcers of the country are these two—"Static," the parrot mascot of station WLS, at Chicago and "Billy Lag," the rooster that has just retired from activity at WLAC, the Minneapolis station that has signed off for the last time. "Static," however, remains and is going to learn a thorough radio language for the enjoyment of the fans.

SCHOOL TEACHER'S FRIENDS MADE GLAD

One of them had this to say yesterday. "We never thought that poor Ellen would ever recover, she had suffered so long from stomach and liver trouble and had lost more than 40 pounds in weight. She took a bottle of Mayr's Wonderful Remedy upon the advice of her aunt and has steadily improved from the first dose. We are all confident of her complete recovery." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

Go to the Gunn Sale Thursday, and buy anything used on farm or in the house.

COLLEGE STUDENTS SEEK EMPLOYMENT

The student body of Illinois college this year will include an unusually large number of young people who must earn a large share of their expenses in order to have the advantages of college training. Some are fitted for special lines of work—stenography, printing, painting, tutoring, singing, playing accompaniments, caring for children, etc. Many are ready to do janitor work, wait tables, do all sorts of odd jobs, etc. The Student Employment Bureau, consisting of Dean Scott, Coach Harmon and Mr. Hoskins, has been organized to make a systematic effort to find work for those who need it and are qualified for the work to be done. People who have work to be done are asked to notify the committee—phones 1840, 206, 454. Care will be taken in the assignment of candidates to positions. Until college opens in September an effort will be made to find regular jobs for the coming college year. Mr. Hoskins will be in Jacksonville early in September and will call to see anyone wishing to arrange for student help. After college opens special attention will be given to supplying workers to do odd jobs. Employers will find in most cases that student helpers are willing and capable, and that they are likely to have more than average intelligence.

I am leaving town and next Thursday, will sell all my farm and household goods at my home two miles west of town. Sale begins at 10 a. m.

NAVY HAS GERMAN RADIATION PATENT

Washington.—A German patent, seized by the U. S. government during the war, is looked upon as a means for ending radiation interference from receiving sets.

As such the U. S. navy, which now controls the patent, has been asked to release it to the public so that such local interference may be stopped.

The patent covers a "muffler" or "blocking tube," which is actually a vacuum tube, in a special anti-radiation circuit. It was originally issued in 1914 to two Germans, from whom it was taken by the alien property custodian in 1919.

The U. S. government bought it from the alien property custodian and turned it over to the Navy Department where legal title now rests.

FREAKS IN GERMANY
The kind of freak sets that came out in America two years or so ago are now making their appearance in Germany. There the matchbox receiver, one built into a watch case and several others of similar design.

TODAY ENDS WHITE HALL CHAUTAUQUA

Ninth Annual Session Comes to Close Today After Successful Week — Attendance Record Broken Thursday.

White Hall, Aug. 22.—This is the great annual vacation week in White Hall, when all business is suspended during the assembly of the White Hall Chautauqua in ninth annual session, excepting that the stores will be open on Saturday as usual. The closing of the factories adds to the general holiday air. The programs have

been running above the usual standard. Thursday was the big day of the week, the attendance eclipsing all previous records of attendance and receipts, and it was announced that the sale of guarantor's tickets for next year, numbering 1,500 had been over-subscribed.

White Hall had the good fortune to have the presence of Thurman Miller, an Ohio newspaper publisher, for three days, and he addressed the assemblage Wednesday afternoon and Thursday night. During his stay he

Chicken Fry, Wednesday, August 27, Salem M. E. church; supper 5 p. m.

came across so much interesting matter concerning White Hall that he opened an editorial office with excellent facilities for preparing some special articles of general interest pertaining to the history of White Hall for use in eastern publications and the Associated Press. His quarters were provided by T. M. English in the office of A. D. Ruckel and son, and this means that in addition to having two addresses that will inspire his hearers for a long time and be of lasting benefit, White Hall will get some valuable advertising that will carry its name far more than this already widely advertised town now enjoys.

Rev. Arthur F. Ewert, origina-

tor of the White Hall Chautauqua, and the platform manager until succeeded this year by Robert G. Smith of Rushville, spoke Thursday afternoon in renewing his friendship for the institution referred to last Sunday afternoon by Judge Norman L. Jones as having grown into the importance of a Greene County Chautauqua. Rev. Ewert was prevented by the condition of his health from serving as platform manager this year but his larger field in Chicago has not served to deaden in the least his friendships and admiration for White Hall, but rather these feelings have grown upon him.

Thursday afternoon had the presence of Trainmaster D. J. Deary and family from Roodhouse. This C. & A. official, a frequent visitor to White Hall, was besieged with queries as to how the proposed new time card is to effect White Hall, and he had nothing to put out further than to say that the train on the main line will be inaugurated in the next few weeks, perhaps the latter part of the month. He did say that the matter of reinstating Nos. 14 and 15 between Roodhouse and St. Louis instead of this train stopping at Roodhouse is being considered, and that he realized that a benefit it would be to the milk shippers along this line. The trainmaster got extended expression from the people of White Hall while mingling among the chautauqua crowds, and says he will remember a lot of things when he attends the time card meeting at a very early date.

HUNGER CAUSES MANY MURDERS IN RUSSIA

MOSCOW, (AP)—Civil war, revolution and famine have made life cheap in Russia. Every day the papers are full of accounts of men, women and children who either killed themselves or murdered others for the most trivial causes. Hunger and penury often furnish the chief motives for the constantly recurring murders. One of the most striking cases recently was that of Dousyva Golovkina, a beautiful girl of 17, who killed her girl companion in order to realize \$5 on the sale of her clothing. This was the second instance within a week where a woman murdered another in order to get her clothing. Without the slightest trace of emotion or remorse, Miss Golovkina explained to the judge of the Moscow criminal court that she had borrowed \$5 from a woman acquaintance to give to her lover, a youth of 19, and as she found it impossible to repay the debt, she enticed her girl companion to her home, while her parents were out. She directed her previously to dress in her

best clothes, as they were "going to a ball."

While the girl was looking at a photograph on the wall of the home, to which her host had directed her attention, Miss Golovkina crept up stealthily from behind and struck her on the head with a heavy hammer. She then dragged the lifeless body into another room, where she cut it in seven parts, burying each part separately in her yard.

Miss Golovkina took the clothing of the murdered girl to her fiancé, who sold it for \$10, of which he spent five on drink, giving the balance to the woman from whom his sweetheart had borrowed the \$5.

Five alienists who examined the young slayer pronounced her normal, saying she was capable of realizing the responsibility for her act. The judge, on account of her youth, gave her only five years, while her fiancé was let off with a similar sentence.

PLAN IRRIGATION FOR WESTERN NEBRASKA

SCOTTS BLUFF, Neb. (AP)—Picking up a river to drive its waters 6,500 feet in a tunnel thru a range of hills that would be called mountains were it not for their location close to higher peaks, is what the government reclamation service is doing here in western Nebraska in order to bring irrigation to the Roubadeau and upper Gering valleys. Arid regions are to be transformed into fertile farming lands.

A point eight miles west of Scotts Bluff mountain is the scene of action. Here the waters of the Fort Laramie canal are to be di-

verted from the North Platte river and thus bring to realization the dream and labor of settlers for many years past.

The tunnel, known as "Number Three," already has been bored thru, but approximately 9,200 cubic yards of concrete, reinforced by structural steel, will be required before it is ready to start next spring. Digging proceeded from each side of the hill and the two ends of the tunnel were joined at the center with a variation laterally of only one-eighth of an inch. In grade, the ends were off less than one-half an inch.

Rev. and Mrs. A. S. Chapman and family, and Dr. and Mrs. H. L. Griswold are spending the week-end at the Griswold cottage on the shore of Lake Matanzas.
